Mobilization Chief Takes Steps To End Steel Tieup

STEEL STRIKE CLOSES ORE DOCKS — Chicago & North Western ore dock workers at Escanaba are starting a lay-off as the steel strike closed iron mines and halted shipment of ore to Escanaba. About 90 men were laid off starting last night and by the end of the week the whole crew of about 175 will be out of work and the ore docks closed down—unless the strike ends. (Daily Press Photo)

Reds Threaten March In Korea

MUNSAN, Korea—(AP)—United Nations and Communist truce negotiators today exchanged strongly worded notes on prisoners of war. The Reds backed theirs with a renewed threat that Red armies in Korea might march.

North Korean Gen. Nam Il laid on the Panmunjom conference table a written protest against what the Reds termed "barbarous and cowardly" treatment of captured Reds on Koje Island. He reminded the Allies of earlier warnings that Red armies would not sit idle while Communist soldiers are "massacred."

Maj. Gen. William K. Harrison, Jr., demanded that the Reds "without further delay" account for nearly 1,000 United Nations soldiers believed captured by the Reds but never listed by them. The senior U. N. command delegate's note listed 91 names, mostly Americans, to add to 895 names compiled by the U. N. since December.

The names will not be made public, Allied officers said, to avoid raising false hopes among relatives.

The 34-minute session produced no progress toward settlement of the truce blocking issue of what to do about 100,000 captured Reds which Allied screening showed refused to be repatriated in the event of an armistice. Only 70,000 Allied held POWs have said they would return to Red soil without a fight.

The Communists demand that all their captured soldiers be returned. The Allies say no one will be forced to return.

At Communist insistence, another session is scheduled tomorrow at 11 a. m. (9 p. m. Wednesday EST).

Sitdown Of Reds To Paralyze Paris Falls Flat Again

PARIS — (AP)—Communist efforts to paralyze Paris with a 24-hour sitdown strike appeared to fall flat again today. Work was normal in most factories and the metropolis showed almost no sign of obedience to the Red strike call.

Steel-helmeted police, many armed with tear gas bombs and gas masks, blanketed the city, however, to prevent any violent Red demonstration against the West.

The Communist-controlled General Confederation of Labor (CGT) ordered the strike in the capital as a protest against the arrests last week of France's top Red, party secretary general Jacques Duclos, and Andree Stil, editor of the party paper L'Humanite.

But like the abortive general walkout the CGT called for all France after the arrests, today's demonstration appeared to have fizzled.

Carpenters Return To Work In Detroit

DETROIT — (AP)—Carpenters in the Detroit metropolitan area will return to work today. They voted yesterday to accept a package increase of 18 cents an hour, ending a 25-day strike.

The settlement increased the average hourly pay to $2.88 for carpenters in Wayne, Oakland and Macomb counties. It was ratified by a substantial majority, according to officials of the Carpenters' District Council.

Clipped Foreign Aid Measure Scheduled For Early Approval

By EDWIN B. HAAKINSON

WASHINGTON — (AP) — Congressional leaders today called for early approval of a foreign aid authorization bob-tailed about 1½ million dollars below the $7,900,000,000 President Truman asked.

The $6,447,730,750 compromise omnibus measure was agreed upon late yesterday by a Senate-House conference committee which adjusted all differences in a single day.

House Cut Junked

Actual appropriation of the money will be covered in a separate appropriation bill, and in past years this has meant further reductions. The House appropriations committee has started hearings on this measure.

Chairman Connally (D-Tex) of the Senate foreign relations committee, who helped engineer the compromise, hoped to get Senate approval Thursday. The House plans to act after the Senate.

Connally had won Senate passage of a $6,700,000,000 measure, some 230 millions above the new total.

But the compromise was about 230 million more than the House had approved and the House plan for applying most of the cuts was junked.

The conferees worked over the big bill item by item to split the differences.

Short Half Billion

They retained a Senate provision that would allow administrators to shift up to 10 per cent of any earmarked funds.

The total authorization now is about half a billion dollars less than the minimum urged by Gen. Dwight D. Eisenhower before he quit his European command to return here as a candidate for the Republican presidential nomination.

The compromise restored about 350 millions for European military and defense support aid that the House cut out.

The agreement also makes offsetting reductions in a number of aid items for other global areas that the House approved intact but the Senate reduced.

Romania Purges Big Ana Pauker

VIENNA, Austria — (AP) — Romanian Foreign Minister Ana Pauker, onetime tough darling of International Communism, seemed destined today for a Red purge. Her hometown radio Bucharest accused her of being pro-capitalist and counter-revolutionary.

Western sources expressed belief that hefty, hard-visaged Mrs. Pauker and two former ministers who also were attacked in the broadcast were being made scapegoats for Red Romania's current economic woes.

The 59-year-old daughter of a Rabbi last week was kicked out of the Romanian Communist party's politburo. For the moment, at least, she still holds the foreign ministry.

The Bucharest broadcast accused Mrs. Pauker and two partners in disgrace—former Finance Minister Vasile Luca and former Interior Minister Techari Georgescu—of reducing the country to a state of anarchy.

It declared that Mrs. Pauker's removal from the politburo was in the interest of the working man.

The broadcast gave credit for uncovering Mrs. Pauker's alleged sins to Georgie Gheorghiu-Dej, who was named new premier of Romania Monday night. Rumors have persisted that Ana and Gheorghiu-Dej were battling each other for control of the Red regime in Romania.

Taxi Driver Kills Wife In Courtroom At Miami Beach, Fla.

MIAMI BEACH, Fla.—(AP)—A former New York taxi driver was held for investigation of murder today in the courtroom slaying of his 36-year-old divorced wife.

A few minutes after he had been placed under a peace bond yesterday, David Brecher shot his former wife in the head at close range, then fired three more bullets into her crumpled body.

"I thought he was firing blanks to make a show," said Justice of the Peace Kenneth Oka. "I ducked under the desk until the shooting was over."

Oka had just ordered the 44-year-old laundry truck driver not to molest his former wife Ann and their infant daughter.

When the shooting was over, Brecher handed the revolver to Oka and said: "Here, I'm surrendering myself."

Candidates Run Neck-And-Neck In South Dakota

(By The Associated Press)

Dwight Eisenhower's political D-Day dawned amid psychological warfare — mounting returns from the South Dakota primary in which he trailed by a fraction of a percentage point.

Results from 1,821 of South Dakota's 1,947 precincts showed Sen. Robert Taft of Ohio getting 63,469 votes and Eisenhower 62,918.

The total Republican vote there is expected to break a 1932 record of 128,000.

Last Headon Clash

The South Dakota skirmish was for 14 Republican and eight Democratic presidential-nominating votes. GOP nomination requires 604 and 14 seemed mighty few to be causing such a nationwide hooplah.

The reasons were psychological: South Dakota was the last headon clash of Taft and Eisenhower, top-runners for the GOP nomination, before the July 7 national convention. The winner would get not only 14 votes but a springboard into the crucial convention floor battles.

Not counting yesterday's results, the Associated Press tabulation of GOP delegate strength—based on known and conceded alignments—gives Taft a 420 to 387 lead over Eisenhower.

Train Kills 2 Men Near Cheboygan, Mich.

CHEBOYGAN, Mich.—(AP) — Two men were killed early today when a New York Central passenger train struck their car at a crossing three miles south of here.

One of the dead was Donald Stark of Harbor Springs, foreman of a rural electrification administration construction crew that had been working on a project about a mile from the scene of the wreck.

The other was identified tentatively as Robert Keller of Conway, a recent high school graduate who started work with the crew only a few days ago.

Lawmakers Fumble With State Deficit

LANSING— (AP) —Michigan's Legislature fumbled today for a new attack on the state's mounting deficit.

Returning for its third successive part-of-a-week session, the lawmakers took looks at these developments:

1—A two per cent industrial processing tax worth $20,000,000 was introduced in the House by Rep. Lewis H. Christman (R-Ann Arbor).

2—Senator Joseph M. Cloon (R-Wakefield) demanded the Legislature consider his proposed personal income tax bill, coupled with a cancellation of the sales tax on food.

3—Senator Edward Hutchinson (R-Fennville) demanded the Legislature "stay in session until the budget is balanced. We should," he said, "keep putting tax bills on the governor's desk until he signs some and then adjourn sine die (permanently)."

4—Senator Elmer R. Porter (R-Blissfield) counselled the Legislature to do what it did in 1937 to another Democratic governor, the late Frank Murphy, who faced a large deficit. That was, he said, to order the governor to cut all departmental spending to fit the amount of money available.

The Republican-controlled Legislature is angered because Governor Williams vetoed tax bills which it believed would have balanced the budget next year.

Lapeer Sheriff Has Touchy Job

LAPEER, Mich.—(AP)—A tense "wait and see" sentiment prevailed today in this Lapeer county farming area in the eviction proceedings against a 60-year old widow.

Irate neighbors of Mrs. Elizabeth Stevens who has been ordered off her 80 acre farm near here, returned from Lansing last night after a heated interview with Gov. Williams and the State Administrative board.

Mrs. Stevens faces eviction for failure to pay a $171 assessment in the 1935 failure of a Farmers' Mutual Fire Insurance organization. Her farm was sold at a sheriff's auction when she refused to pay the assessment.

The farmers, led by C. G. Gilliland, called on Gov. Williams to halt the eviction proceedings against Mrs. Stevens.

Gov. Williams agreed to ask State Insurance Commissioner Joseph Navarre to make a report.

Lapeer County Sheriff Clark W. Gregory said he would make another attempt to serve the eviction papers on Mrs. Stevens.

Gregory and a deputy were bodily prevented from serving the papers Monday by a group of Mrs. Stevens' neighbors.

Looking For Oil

Mexicans Depistoled

MEXICO CITY — (AP)—President Miguel Aleman today ordered a nationwide "depistolization"—confiscation of all illegal firearms and a review of all gun permits—to forestall violence in the July 6 national elections.

Eisenhower Begins Presidential Campaign At His Boyhood Home

By RELMAN MORIN

ABILENE, Kas.— (AP) —Gen. Dwight D. Eisenhower arrived in Abilene by special train today for a two-day round of ceremonies welcoming him back to his boyhood home.

A heavy overcast, and occasional light sprinkles, threatened a rainstorm.

The train stopped directly behind the old Eisenhower home.

Crowd Of 25,000

People massed solidly in temporary bleachers outside his hotel, clustered around the railroad tracks and lined the streets. The crowd was estimated at 25,000 by Col. Hugh Edwards, Kansas highway patrol superintendent.

Abilene is a town of about 5,000 people. Most of its private homes were filled with guests.

Thousands of people gathered beside the railroad tracks, which run in back of his former home.

Some were former neighbors, some were the merely curious, and some were well-wishers who came to Abilene from a wide area of the Mid-Western states.

New Chapter For Ike

Very few were unaware of the political implications of the occasion.

Officially, it was a welcome home tendered by a small town to a famous son.

Actually, the ceremonies dramatized a new chapter in Eisenhower's life, his departure from the Army and his duties as supreme commander of the North Atlantic Treaty organization, and his entry, on a personal basis, into the political arena.

As such, they may constitute a critical point in the effort to make him the Republican Standard Bearer next month.

His backers are hoping that a 30-minute speech today and a big news conference tomorrow will put powerful impetus behind the drive. They will be reported by newspaper, radio and television, reaching millions of people.

Dedicate Museum

Neutral observers feel that a bad start here would cripple the drive at a crucial time.

The two-day celebration began almost in the shadow of the Eisenhower family home.

It is a white, two-story frame house, half hidden from the unpaved street by towering shade trees.

In the field nearby, ground is being broken for an Eisenhower Museum. It will house the souvenirs and trophies that came to him from World War II. The mementoes of Britain and Algiers, of Sicily and Salerno, of Omaha Beach, the Normandy hedgerows and finally of the schoolhouse at Rheims where two frozen-faced German generals signed off for Nazi Germany.

Eisenhower and four of his brothers were to lay the cornerstone for the foundations of the building.

A parade with more than 30 floats was next on the program. Each float illustrated some phase of Eisenhower's life, in Abilene, at West Point, and overseas, as a solemn youngster on the high school football team and a proud bridegroom in a tight-waisted Army uniform, and so on up to the present.

The last float placed him in the White House—a hope, not a fact.

From there, the plan called for a speech at Eisenhower Park, on the opposite outskirts of town. No certain information was available about the text of his speech, but one of his Washington lieutenants said "He will speak out, frankly, on the things people want to know about his position."

Three Ironwood Miners Rescued

IRONWOOD, Mich. — (AP) — The body of the second man killed in the cave-in Monday which trapped five miners in the Penokee iron mine, was located today by rescue workers.

Yesterday afternoon three miners were reached and walked unaided from the shaft. Later the body of Jerma Olkonen, 36, of Ironwood, was discovered lying beside his machine.

Crewmen completed the search when they discovered the body of Serifin Zacharzewski, 36, of Ironwood. It will take several hours to hack through the earth and rock that shroud the body before removal can be completed.

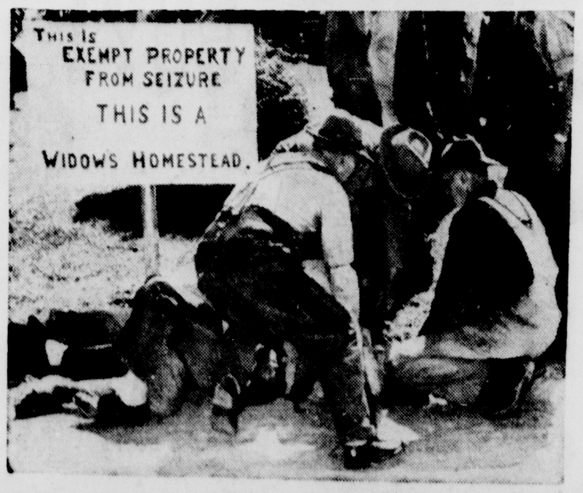
Victor Cox, 51, and Christopher Hocking, 46, both of Ironwood, and Mack Krocker, 54, of Bessemer, Mich., ended a 24-hour entombment when rescue crews broke through the rubble. They were taken to a hospital where physicians said they were in good condition.

The cave-in occurred as the men were sealing off part of the Republic Steel Corp. mine. Cox, the foreman laconically described the experience as "one of those things." He said he, Hocking and Krocker gained shelter under timbers when the shaft crumbled but the other two miners were not able to get to a protected place.

The trio began knocking on timbers with rocks and rescue men returned the signals for six hours as they sought to force an air line through.

Gruen Founder Dies

CINCINNATI, — (AP) — George J. Gruen, chairman of the board of directors of the Gruen Watch Co., died of a heart attack yesterday at his home. Kruen, 74, whose family has made American watchmaking history, was the last survivor of three sons of Dietrich Gruen, who founded the firm at Columbus, O., in 1874.



FARMERS GET ROUGH WITH SHERIFF—Defiant farmers manhandle Sheriff Clark W. Gregory, 35-year-old ex-Marine, who started to serve an eviction writ on a widow, Mrs. Elizabeth Stevens, near Lapeer, Mich. The 80-acre farm of Mrs. Stevens was sold at a court-directed sale to satisfy a $171 assessment made in the failure of a mutual insurance company. A number of farmers in the area who are in the same predicament have defied authorities to oust them. Sheriff Gregory is the man on his back on the ground. (NEA Telephoto)

Reds Defy British Blockade Of Radio Station In Berlin

BERLIN— (AP) —The Russians mysteriously relaxed half of their two-way blockade of Allied military patrols on Berlin's lifeline Autobahn today—one day after the British had laid siege to the Communists' Radio Berlin building.

Russian guards let an eastbound American Military Police jeep travel the 110-mile road from Western Germany to Berlin after a 10-day ban, but turned back both American and British jeeps which tried to make the trip from Berlin to the west.

Meanwhile Communist defenders of beleaguered Radio Berlin in the British sector defied their besiegers.

The score of Russian tommy-gunners inside the building weren't talking but their German Communist colleagues on the radio staff jibed at the British over the air and over the telephone.

The British slapped their barbed wire blockade around the big Red brick building in the British sector at dawn yesterday, retaliating for Soviet seizure of several small border communities the Western Allies have been administering. The British said anybody inside the station could get out but no one could get in.

The Communists showed no letup in their slow squeeze on the western-held half of the former German capital.

The radio remained on the air despite the bloodless blockade and continually denounced the British for "an illegal provocation" which will "receive its deserved rebuff."

Outside a combined force of about 200 British military police, soldiers and German police maintained their siege.

Escanaba Fair Building Okayed

LANSING—(AP)—The State Administrative board yesterday approved plans for new buildings on the State Fair grounds in Detroit and the Upper Peninsula State Fair grounds in Escanaba.

The board approved a 10-year renewable lease of part of the Detroit Fair grounds to the Detroit area Ford dealers. The dealers plan to build a permanent exhibition building on the land.

At the same time, plans for a 60 by 130-foot addition to the exhibition building at the Escanaba Fair grounds were approved. The board was told the addition was to be financed by local funds.

Ozark Preacher Fasts 45 Days

CHERRYVILLE, Mo. — (AP) — "How long can he go?" residents of this quiet little community of 36 asked themselves today as relatives began to converge on the home of the fasting Ozark preacher.

By his own count, the Rev. J. J. Ivie has been without food now for 45 days. His wife has reported for several days that he is steadily weakening and able to sit on the edge of his bed only for short intervals.

The 57-year-old minister's sister, Mrs. Alma Merchant, came here from her home in Calico Pock, Ark., to be near him. Mrs. Ivie's sister, Mrs. Sarah Holland, also arrived from Painesville, O.

They joined the three Ivie sons and a daughter who have been here several days.

Neighbors continue to watch the case with interest although they are barred from the Ivie home. There is much speculation here on how long a man can go without food.

Mahatma Gandhi of India went on several famous fasts. In 1936 an Indian priest in Bombay claimed to have gone without food 259 days.

Ivie has said he will continue the fast until his prayers for a religious awakening in the world are answered — or until death comes.

Officials Of 6 Firms Called To Meet With CIO

WASHINGTON — (AP — The White House today called union and management leaders to a meeting tomorrow in a move to end the steel strike.

The invitation went out to leaders of the CIO Steelworkers Union and to top-level industry spokesmen from John R. Steelman, acting mobilization chief.

He summoned them to a meeting at his offices at 10 a. m. (EST) tomorrow. Union and management promptly accepted the call.

Broken Off May 4

Philip Murray's Steelworkers Union went on strike Monday minutes after the Supreme Court struck down President Truman's order seizing the nation's steel mills.

Steelman noted that union-management leaders met with him last month in an attempt to work out a new contract. Those meetings broke off May 4 with no indications of any substantiaal progress to a settlement.

Steelman said the conferees at those meetings agreed to adjourn, subject to recall.

Steelman's telegram went out to six industry leaders and to CIO President Philip Murray.

Steel leaders summoned were Benjamin Fairless, U. S. Steel Corp.; Benjamin Morrell, Jones and Laughlin Steel Co.; Frank Purnell, Youngstown Sheet and Tube Co.; Charles M. White, Republic Steel Corp.; A. B. Homer, Bethlehem Steel Corp., and Clarence Randall, Inland Steel Co.

Won't Take Less

But though both sides indicated willingness to sit down and talk contract—to replace the labor pact that expired Dec. 31—there still appeared little prospect that a negotiated peace would be reached soon.

Murray said he will settle for nothing less than the recommenda-

Moonshine Still Seized In Pigpen Near Port Huron

PORT HURON, Mich. — (AP)— Farmer Alvin Gardner, 40, and his hired man who gave only the name of Ozzie, 25, today awaited arraignment in municipal court following their arrest in a raid on a moonshine still.

Prosecutor Delmer L. Cleland said they would be charged with violation of the state liquor laws.

Ten officers, including sheriff's deputies, state police, the prosecutor and three Detroit patrolmen, raided the 40-acre Gardner farm at Smiths Creek 12 miles southwest of here yesterday.

The officers said they found Ozzie operating a still in a pigsty. Gardner was at work in the farm yard nearby. The raiders seized eight gallons of alcohol and 400 gallons of corn mash.

Prosecutor Cleland said Gardner admitted he had been operating the still for the last eight months and selling 20 gallons of his old pigsty 100 proof alcohol a week to a Negro clientele in Detroit. He charged $8 a gallon for it.

Depositions In Norton Estate Suit Proposed

A recommendation by Circuit Judge Glenn W. Jackson that defendants Frank and George Lindenthal testify under oath whether certain records, whose existence is denied by them, do actually exist was filed this week in Circuit Court.

The proposal is contained in an opinion issued by Judge Jackson in response to a request that the estate of John P. Norton, late publisher and owner of the Daily Press, in their accounting suit against the Lindenthal brothers and the Delta Broadcasting Company, be allowed to examine the records of financial transactions made by the defendants when they were employed as executives of the Daily Press and radio station WDBC.

Existence Must Be Proved

To determine their existence, he suggests that depositions (sworn statements made in the presence of a notary public) be taken by the plaintiff's counsel and placed in the case file. From that testimony he will be able to determine which records he may order to be produced to the plaintiff.

The Judge states: "The Court has examined the 59 assignments of the plaintiff and also the answers of the individual defendants thereto. As to many of (the) subject matters, it appears prima facie to be proper subject matters for discovery. As to the records or other written memoranda which defendants denied to exist, the opinion of the Court is that the plaintiff should be allowed to take depositions of the individual defendants, or either of them, to determine whether the records or other written memoranda exist, with respect to which discovery is sought."

Indefinite Allegations

He further declares that the "plaintiff referred to certain general allegations in the bill of complaint and in the answer of the defendants. Because of the generality of many of these, the Court fs of the opinion that the allegations are not sufficiently definite and specific. Specific subject matters for discovery should be set forth in the motion (for discovery) from which the Court can determine definitely what discoveries should be granted, limited or denied."

The authorization for the legal acceptance and validity of depositions in the matter is cited by the judge to be Court Rule No. 41.

Jackson states that he will withhold ruling on the plaintiff's motion for discovery on the basis of this recommendation for not more than 30 days to allow the plaintiff to proceed on the recommendation.

Probable action on the opinion has not been determined.

Strahan Infant Dies Of Meningitis

James. infant son of Mr. and Mrs. Joseph Strahan of Wells, died this morning at St. Luke's Hospital in Marquette. The baby was ill two days with meningitis.

He was born in Escanaba July 10, 1950. Surviving in addition to the parents are a brother, Joseph, and the grandparents, Mr. and Mrs. Barney Strahan of Wells.

The body was taken to the Allo funeral home. Arrangements for the services will be completed later.

Build Electric Plant, Engineers Advise City

The City of Escanaba should "as quickly as possible take steps to design, construct, and place in operation an electric generating plant" with capacity to meet the city's entire requirements, the City Council has been advised by Consoer, Townsend & Associates, consulting engineers of Chicago. Cost of the project is estimated at $4,050,000.

Escanaba City Council in special informal session recently discussed the report and its recommendations. It will meet again in connection with the study following information from the Upper Michigan Power & Light Company requested by City Manager A. V. Aronson.

The city now purchases (as it has for many years) electric power wholesale from the Power Company, a subsidiary of the Mead Corporation, which also operates the Escanaba Paper Company.

Seek To End Contract

The city's contract with the Power Company is scheduled to expire Aug. 1, 1959.

Early last year the Mead Corporation began discussions with the city regarding changes in the city's electric power demand and the energy charges and other factors. The city was informed that the electrical energy it had purchased was triple that of 1939 "and the Power Company had reached the limit of its physical capacity to supply power to the city."

The position of the city is that a rate of increase to the Power Company is not warranted at this time; and that a study should be made by an independent engineering firm of the entire electric problem.

This study was made by Consoer & Townsend and their report was recently received by the city.

Own Distributing System

The Escanaba electrical department was first organized in 1892 at which ithe city generated its own power and continued to do so until 1903, when it began purchasing power from the Escanaba Paper Company.

Through the years the city has continued purchasing power from this source and from its subsidiary, the Upper Michigan Power & Light Company, at wholesale and distributing it over its own electric distribution system.

The consulting engineers found the "overhead distribution system (of the city) in good condition and well maintained."

It has been a very profitable operation for the community with eelctrical energy "purchased at a very advantageous wholesale rate and then distributed and sold to the various users at retail rates that are equal to or below the average rate schedule of both publicly and privately owned utilities."

Hampers Company, City

The Escanaba Paper Company makes a considerable demand upon the Upper Michigan Power & Light Company's electric generating capacity.

During periods of maximum customer demand the paper mill's operation has to be curtailed because of the power shortage.

The Mead Corporation considers "the paper business is of prime importance and that the generating of electrical energy is more or less a by-product of this process," the consulting engineers reported.

Meanwhile the electric power demand by the City of Escanaba, the Power Company's largest customer, is increasing.

If the city is unable to obtain additional power, due to the present limited capacity, power customers and sales will be much reduced "as no new industry will be interested in locating in Escanaba unless adequate close-at-hand generating capacity is available."

The Basic Question

The engineers in their report point out that the problem is one jointly affecting the Mead Corporation and its subsidiaries and the community. If one is adversely affected, so are all.

The question must be answered in a way that does not injure one of the principal industrial concerns, they report.

"Basically, we believe the problem to be—who is going to provide the generating capacity necessary to supply the growing demands of this community?"

The consultants recommend that the city take immediate steps toward the planning and construction of an electric generating plant "in order to solve the city's electrical problem and permit both the city and the Mead Corporation to plan effectively for the future."

Estimate Cost $4,050,000

The recommended city electric plant should be steam operated and located on city-owned property on the north bay shore.

"This location has adequate lake frontage to handle self-unloading lake coal boats and provide adequate coal storage, which will permit use of the most economical fuel."

Total cost of the project is estimated by the engineers at $4,050,000.

The project can be financed by revenue bonds, which would be retired over a 25-year period from the income of the electric utility. To produce the revenue required for the project there would be an average increase of approximately 14 per cent over rates now in effect.

John Clark To Leave Escanaba

Escanaba's superintendent of its steam and gas department, John R. Clark, has accepted another position and will leave city employment July 1, it was announced today by City Manager A. V. Aronson.

Clark came to Escanaba July 1, 1950, following his graduation from Michigan College of Mining and Technology, Houghton. His successor as head of the gas and steam utilities has not been determined.

From Escanaba Clark will go to Boyne City, Mich., where he will be employed by the Northern Michigan Electric Cooperative, Inc., as superintendent of a steam plant now under construction. The Cooperative has electric generating and transmitting facilities including a diesel plant and a couple of hydroelectric plants.

Prior to service in the U. S. Navy, Clark was employed by the city of Traverse City and in rural electrification construction projects. His wife and daughter will accompany him to Boyne City. The Clarks reside at 1403 South 13th St.

Wine Festival Is Scheduled Soon

TEL AVIV— (AP) —A wine festival, combining old biblical and new Israel style, will be celebrated this summer on the southern fringes of Mt. Carmel, the wine center of the Holy Land. There have been no wine festivals here for some two thousand years, historians say.

The festival, which will be highlighted by a number of cocerts, will be coordinated with the Jewish Choir Festival in Jerusalem.

Boat Owners Must Buy State License

All owners of boats 16 feet in length or over must purchase license plates for their craft beginning this year, according to an act of the 1952 Michigan legislature.

The issuance of license plates for certain water craft has been transferred to the Secretary of State under the act, and license plates and applications may be obtained at the Escanaba branch of the Secretary of State's office, according to William Ranguette, manager.

The license fees on power craft is as follows: For boats 16 feet but not over 20 feet, $6; 20 to 28 feet, $15; 28 to 35 feet, $25.

All boats 16 feet or over in length, with or without auxiliary power, must be licensed and a license plate attached to each side of the vessel.

School Trustee Voting Monday

Voters of Escanaba will elect two trustees to the Escanaba Board of Education at an election to be held Monday, June 9.

The names of two candidates, both incumbents seeking reelection, will appear unopposed on the ballot. They are Dr. Louis Groos and C. Gust Peterson. The terms are for four years, beginning July 1.

For the purposes of the school election there will be four precincts and four polling places established, with the polling places open from 8 a. m. to 8 p. m.

The school board will meet Tuesday, June 10, to canvass the votes cast and for other business.

The four city school precincts and polling places are described as follows:

Precinct No. 1—Combining city precincts 7 and 8; from the north side of Third Ave. N. to the north city limits, and from the west city limits to Bay de Noc. Polling place: North Escanaba Fire Station.

Precinct No. 2—Combining city precincts 4 and 5; from the west city limits to the west side of 12th St. between and including the south side of Third Ave. N. and the north side of Third Ave. S. Polling place: Junior High School.

Precinct No. 3—Combining city precincts 6 and 9; from the west city limits south of Third Ave. S. to the west side of South 12th St. but extending to Bay de Noc south of Seventh Ave. S. Southern city limits make the south boundary. Polling place: Senior High School.

Precinct No. 4—Combining city precincts 1, 2 and 3; from the east side of 12th St. to Third Ave. N and to the north side of Eleventh Ave. S. east to Bay de Noc on the northeast and the southeast. Polling place: Franklin School.

Demonstrations In Welding Planned For Delta Farmers

A welding demonstration to instruct farmers in the use of the welding machine, which they are finding increasingly necessary on the farm, is planned by agricultural agent Joseph Heirman June 13.

The class will be held in the county road commission garage with expert welders supplying the demonstrations.

"More and more farmers are feeling the need of a welding machine on their farms," according to Heirman, "and they would like to know more about operating the machine. But not only farmers; the same is true of small rural repair shop owners and logging operators."

Persons interested in attending the demonstration are asked to make reservation by card of telephons, at the MSC extension office in the courthouse. About 25 persons can be accommodated in one demonstration. Extra classes will be scheduled if necessary.

Salmon, pike, and goldfish are the only fish that do not sleep.

Public Education on Alcoholism Needed to Meet Serious Problem

THOSE who have made a study of alcoholics and alcoholism, such as Attorney Harlan Yelland of Escanaba, who is a member of the governor's commission on alcoholism, believe that a great deal of public education is necessary to effectively meet the alcoholic problem.

For one thing, there is apparently considerable public misconception of the problem itself. Some people, for instance, may regard an alcoholic person as a man—or woman, as the case may be—of low moral character. To put it more bluntly, a drunken bum. Actually, this is far from the truth because the record proves that an alcoholic may be anyone—a college graduate, a professional man, a talented scientist or a common laborer.

Before the problem of alcoholism can be intelligently attacked, there must be general public recognition that an alcoholic person is a sick person because alcoholism is a disease. Secondly—and this is of equally extreme importance—there must be recognition by the alcoholic persons that they are ill and need assistance.

Unfortunately, the average alcoholic resists help until he has reached the depths of despair. He fails to comprehend that he is different from his friends who may drink, too, but who can take alcoholic beverages or leave them alone.

It has been estimated that there are about 60,000,000 people in America who drink some type of alcoholic beverage at least occasionally. About 4,000,000 of these people are alcoholics. The 56,000,000 can be social drinkers. The 4,000,000 cannot.

Prohibition is not the solution to the alcoholic problem as we learned to our sorrow in the 20's. There will always be intoxicating liquors, no matter what laws are passed to prohibit them. We have to attack the problem more intelligently than this.

Public education on alcoholism, its causes and effects, is a better approach. Through these means and the expansion of the excellent program now being carried forward by Alcoholics Anonymous, we can control the problem.

Unfortunately, we probably never will be able to eliminate the problem entirely.

Communist Medicine Is Bad Medicine

IN a recent editorial the Washington Post said, "In considering the various proposals before Congress to give government medicine to various segments of the population, we have to keep in mind where such laws lead . . . .Our Federal planners are jumping the British stage and moving straight to Federally financed medicine, a la Russia."

The Post then described the experience of a doctor who worked in the Soviet Union for 17 years and is now in the United States. In the average Russian community, he said, patients have no choice of physician—a bureau controls all medical practice and people are assigned to a given clinic. The clinics are further divided into districts each of which has a doctor and a nurse who are supposed to serve 2,000 to 3,000 inhabitants. During his office hours, the doctor is able to give about five minutes to each patient, because of the crowd. On house calls he can spend about ten minutes. Hospitals are jammed. One result of this kind of political medical care is that the tuberculosis death rate in Russia is six times higher than in the United States.

You can say that conditions would be entirely different here, even under the Administration's compulsory Federal health insurance scheme. But the fact is—and history has demonstrated it over and over again—that a little bit of socialism, a little bit of dictatorship, always leads to more and more.

No major nation enjoys health standards as high as the United States. In none is better or more comprehensive medical care available to the masses of people. This is the achievement of free medicine working in a free country. Will we be blind enough to let the politicians force socialized medicine down our throats?

'E' FOR EXCELLENT
(Iron Mountain News)

It is an enviable distinction in itself that the eight patient-students who received diplomas in ceremonies at Pinecrest Sanatorium, Powers, comprised the largest hospital graduating class in the country this year. Add to that the fact that all of the graduates rated better-than-average scholastically and you have a record that definitely rates "E" for Excellent.

Pinecrest is the only TB sanatorium in the country that offers the privilege of high school work beyond the special-education age of 25. Four of the eight graduates were enabled to complete their work because they are in the adult-education group at the Sanatorium.

All this has been achieved through the cooperation of the Powers-Spalding board of education—William J. Sharon, superintendent—and the Michigan State Board of Education.

It was a definite inspiration yesterday to see the graduates, in traditional caps and gowns, step forward and receive their diplomas, for behind the ceremony was the combined effort of many men and women, in and out of the sanatorium, who have contributed much effort to assist the students. Mrs. Evelyn Collins, director of special education, admits that she and others associated in the work are decidedly proud of the achievement and of the continuing opportunity for others, in the future, to complete their high school education while receiving treatment at the Sanatorium.

The News commends this unique service, as well as the Powers-Spalding board of education, the State Department of Education, supervisors at the Sanatorium and, finally, the students themselves who by their enthusiastic acceptance of the program, and application to it, have contributed to its outstanding success.

Questions and Answers

Q—How do birds know when to fly south?

A—This is still an unsolved problem, though one theory is that birds are sensitive to the changing amount of light and length of the day as autumn comes. Similarly in the spring they may possibly detect the increasing light and length of the day as the sun climbs higher again.

* * *

Q—Why is the cowbird so called?

A—Because it gathers in large numbers in pastures to eat the insects which are disturbed by grazing cows. The male cowbird is about eight inches long.

Take Care to Avoid Diseases Carried to Humans by Pets

BY EDWIN P. JORDAN, M. D. — Written for NEA Service

Myasthenia gravis is a rather uncommon disease. Its cause is still unknown but its treatment, if not cure, has been enormously improved upon. It is generally evidenced by a combination of fatigue, weakness and frequently wasting of muscles, particularly those in the upper part of the body.

Although the disease does not act upon any two patients exactly alike, a vivid description was given by an anonymous patient a few years ago in a British medical journal.

The patient was 18 years old in 1925. She first noticed seeing double and felt fatigued. After several months of this, while she was ironing a dress, she suddenly found that she could not hold up her head, which kept dropping forward.

Soon thereafter her knees started giving way underneath her at odd times and her eyelids would droop as soon as she became the least bit tired.

She became weaker and weaker. Many drugs were tried and many doctors consulted without any real improvement. This went on for 10 years, and as she said, "I had no real hope of recovery, but I eventually became resigned to my fate."

Ten years after the first symptoms began, the patient's fiance, who was a medical student, told herd that he had something new for her to try. Her first thought, she said, was "Oh, brother! Another injection and another false hope."

"I submitted to the injection," she said, "and within a few minutes began to feel very strange. When I lifted my arms, exerting the effort to which I had become accustomed, they shot into the air. My upper eyelids were strangely retracted (pulled up), and every movement I attempted was grotesqely magnified until I had learned to make less exertion.

"I had simply regained relatively normal strength—it was strange, wonderful, and at first very frightening."

The drug was neostigmine which the patient continued to take almost every day for the next 14 years.

DRUG OFFERS RELIEF

In the summer of 1937 the patient married her medical fiance. With an additional drug started in 1940, she became so well that in 1942 she began work in a tank factory.

"During my three years at a bench in the view room," she said, "I was often picked out by the foreman for a heavy job, on the grounds that I was 'one of the tough ones."

Although myasthenia gravis does not always respond as well as this, the medicine which this patient took, together with others, is offering a great measure of relief to many sufferers from this curious disorder.

Merry-Go-Round

By DREW PEARSON

WASHINGTON—Copies of more secret Chinese cables have just been obtained by this columnist, showing how the Chiang Kai-Shek government conspired to pull the United States into a third world war and how Chiang was in frequent touch with General MacArthur behind the State Department's back.

The cables were sent by the Chinese embassy in Washington to Chiang in Formosa and have now been translated officially by the Library of Congress.

The most amazing cable is dated Dec. 5, 1949, and states: "Our hope of a world war so as to rehabilitate our country is unpalatable to the (American) people."

This policy of embroiling the United States in a third world war in order to rehabilitate Chiang apparently was established immediately after the Red invasion of Korea on June 25, 1950. For, in a cable dated July 14, just three weeks after the invasion, the Chinese embassy warns that they must be patient about their plan to extend the Korean war to the rest of the Asiatic mainland.

"Whether the Chinese Communists send troops to Korea or not is of secondary importance," the Chinese embassy cabled Chiang, "but the war in South Korea will be extended in any case. We should remain patient at this time. Whether or not the war will extend to other places in Europe and Asia, we should make little comment and wait for the development of the situation."

Apparently, the Nationalist Chinese had reason to believe that certain of their American friends would manage to spread the war whether Chinese Communists came into Korea or not. Subsequent cables made it clear that General MacArthur was one of these friends.

CHINESE POLITBURO

These amazing cables were prepared jointly by the Chinese embassy's five top policy-makers. They formed a sort of "politburo" inside the embassy, reporting direct to Chiang-Kai-Shek over the head of Ambassador Wellington Koo. In fact, one of their cables actually discusses the fitness of the ambassador to remain on the job.

The big five, who actually overruled the ambassador, were: Chen Chih- Mai, Peter T. K. Pee, W. K. Li, K. H. Yu and Gen. P. T. Mow. They signed their cables with a joint code signature, "Kung," the Chinese word for "group."

The cables are full of references showing that the Nationalists worked closely, sometimes secretly, with General MacArthur. For example, the politburo inside the Chinese embassy reported, May 31, 1950: "General MacArthur will never give up assisting Formosa. The above things are said to be coming from the mouth of General Willoughby, himself."

Again, on June 29, 1950—right after the Korean invasion—the group, or "Kung," cabled: "There are advantages and drawbacks whether or not we send troops to assist in resisting North Korean aggression. If our government has decided to send troops, they should be limited to some of our best troops and the opinion of General MacArthur should be obtained prior to their dispatch."

MARSHALL VS. MACARTHUR

A still later cable, dated July 7, 1950, laments: "It is impossible to expect a fundamental change in their (the administration's) policy toward China, but General MacArthur has a deeper understanding of us. We should pay attention to our liaison work in Tokyo, so as to influence the capital."

And on Sept. 12, 1950, the "kung" inside the embassy reported: "There is a difference in political opinion between Marshall and MacArthur, and their personal animosity is very deep. Therefore, MacArthur's position will become increasingly difficult . . . . At present we receive material help from MacArthur's headquarters."

A report that MacArthur was planning to send American troops to occupy Formosa, back in 1949, is contained in a cable, dated Dec. 28, 1949.

"It is learned from senators who returned from the Far East," reports the cable, "that General MacArthur believes that, before the Japanese peace treaty is signed, America may send troops to occupy Formosa, but the Department of State and military headquarters (Pentagon) are worried that such action may produce domestic and international complications—so policy toward Formosa is still under consideration."

Into The Past

10 YEARS AGO

Washington, D. C. — Two Japanese air raids were launched at Dutch Harbor, United States naval base in Alaska, setting off intensified precautions against any unexpected Japanese thrust along the vast Pacific frontier.

London — The RAF bomber command, having kept the war plant city of Essen under two consecutive nights of fire and blast, disclosed that it was moving steadily toward a goal of 30,000 raiding bombers over Germany a month, an objective it planned to attain by sending out as many as 2,000 planes in a single night.

Escanaba—Donald Buckland, son of Mr. and Mrs. Edward Buckland of 624 N. 19th St., departed for Washington, D. C., where he was to take a position as senior typist in the United States Treasury Disbursement office.

Goldfish To Panties: Restless College Boys Blow Off Tension

By RUTH MILLETT

NEW YORK—(NEA)—What's behind the latest and silliest craze to sweep college campuses?

At one college after another, that question is being asked in the wake of organized raids by men students on girls' dormitories and sorority houses for the purpose of swiping as many pairs of panties and bras as the boys can snitch from the girls' rooms.

The panty - bra brawls have spread like grass fires from campus to campus, throwing house mothers into hysterics, embarassing college authorities, and causing a good many people to wonder of the cultural advantages of a college education are all they are supposed to be.

* * *

The dean of men at one large state university told me:

"I think these panty-bra raids are just another example of the kind of emotional outbursts that have been rather frequent on college campuses during the past few years.

GOLDFISH EATERS of 1939, like this one, ate 'em alive.

"There seems to be a general unrest among college boys today, brought on, I think, by the insecurity of not knowing what tomorrow hold for them.

"They try to act normal most of the time, to plan ahead for the future and to work toward certain goals. But as one student put it to me the other day: 'No matter how hard we try to act normal, in the back of our minds is always the question: where will we be next month? Will we ever get to carry out the plans we are making today'

"That seems to be the general state of mind and to escape from it now and then somebody thinks up something silly to do, the sillier the better.

"All of a sudden one student will say: 'Let's toss Jim into the lake.' There's a wild fight and scramble and pretty soon a bunch of college boys are creating such a disturbance complaints begin to come in.

"The boys know afterward that it was silly, but at the moment the idea seems hilarious and so they're swept along to take part in some prank that won't even seem funny to them the next day.

"It must give them a kind of momentary release from the tension of worrying and wondering about tomorrow. Usually the prank, though juvenile, is harmless enough. But sometimes as in the panty-raids on certain campuses the stunt becomes so destructive that something has to be done about it.

KISSING BUG, also '39, had the cooperation of co-eds.

"But as for really serious disciplinary problems — there don't seem to be any more this year than in other years."

So there you have a dean of men's explanation for the panty-bra raiding—college students faced with uncertainty and fear of the future, reacting to the strain they are under by defying authority to raise Cain in the silliest, most hair-brained ways they can devise.

If it harn't been bra - panty hunts that caught their fancy, it would probably have been something else equally as senseless, like the goldfish eaters or kissing marathons of other years.

For apparently it is the senselessness that seems so irresistible to them.

But is that so strange, considering that they must feel the world is a pretty senseless place right now, when a young man is studying to be something he may never have a chance to be, is planning for a future when he may never have a future, is having to work at trying to act "normal?"

When he is one of a gang bent on some irresponsible prank that will cause a lot of wild excitement, he is being senseless in a way that he doesn't have to try to understand.

If there is any explanation at all for this whole silly business of the bra and panty raids—perhaps that is it.

Arsenic and Old Tintacks Is Paris Springtime Song

By ROSETTE HARGROVE
NEA Staff Correspondent

PARIS—(NEA)—Springtime in Paris is not all hand-holding and wistful sighs along the Seine embankment.

While love was blooming elsewhere, for instance, a tale of arsenic and old tintacks was being unfolded in the Court of Assizes the likes of which Paris had never heard before.

The cast:

Madeleine Schneider, 38, a peroxide blonde hairdresser, accused of making a sandwich spread of chopped light bulbs, tintacks and rat poison for her husband's lunch box. She didn't want to kill him, she said. "I just wanted to annoy him."

Leon Schneider, 41, also a hairdresser, the dark-haired, Alsatian husband of Madeleine, was accused of shooting his wife in the pocketbook. It wasn't the lunch that annoyed him. "She insulted me," he said. "She called me 'Boche' and I saw red. I didn't actually want to kill her, just frighten her."

The melodrama began after 18 years of stormy married life. Madeleine wanted out. Leon wanted her to stay. After several preliminary departures, Madeleine went home to mother, taking their daughters, 13 and 16, with her. She wanted her freedom.

In the next act Leon waited for Medeleine to show up at work. He wanted, he said, to appeal to her maternal feelings. When he decided there was nothing motherly about being called a "Boche," he fired. Then he ran away. When the gendarmes caught up with him at home, he said (1) turned on the gas, (2) swallowed half a bottle of sleeping pills and (3) shot himself in the head. His aim was no better; the wound was superficial.

INDIGESTIBLE sandwichmaker Madeleine Schneider explains chopped light bulb lunch

Act three was in two scenes, the separate criminal court trials of Madeleine and Leon. As the curtain came down, the Schneiders walked out free, Madeleine with a three-year suspended sentence (she was "irresponsible," the court psychiatrist said) and Leon with a five-year suspended sentence.

Even with love in bloom along the Seine, however, it is doubtful that Madeleine and Leon are among the hand-holders. Or, for that matter, that Leon is eating Madeleine's sandwiches for lunch.

Good Evening . . .

BIG BUSINESS—Fishing rates as a No. 1 sport in Northern Michigan, with walleye fishing holding top spot on the recreation list in the Delta county area.

Except in the Masonville-Rapid River area at the head of Little Bay de Noc the walleyes have been shy and not easily persuaded to grab a hook. Fishermen have had fair to poor luck elsewhere—and even off the Masonville shore it has been poor at times.

But a great deal depends on the ability of the fisherman to outwit the fish, and you cannot always judge the fishing grounds on one man's lack of success.

We overheard some men complain of poor luck to Al Lawrence, Escanaba city comptroller and ardent fisherman, who replied that he had taken six walleyes that same day. They were using worms and spinner, getting nothing; he was catching fish on an orange and black flatfish.

* * *

THE TOWN TROUT—Mixed weather greeted fishermen over the Memorial Day weekend, with rain, sunshine, winds and calm all combining to unsettle the angler.

Hundreds of visiting fishermen from other states came and saw and settled down to a weekend of cards in the cabin.

For a couple of Gladstone boys, however, the fishing was good—right in their own town.

Gary Buckmaster, seven-year-old son of Mr. and Mrs. Donald Buckmaster of 568 North Ninth St., and his friend Jack Trygg, 15, son of Mr. and Mrs. Robert Trygg, went fishing on Saturday in a tiny creek that flows back of North 15th St. in Gladstone.

They came home with five trout, which was a much better take than fell to the lot of some trout fishermen who had travelel a long distance to the fishing ground and were equipped with all kinds of lures. The boys just plunked into the creek a worm on a hook.

* * *

REPEAT PERORMANCE—"Better luck than I have" is the way the boys' trout fishing success was described by Gary's grandfather, Police Chief Torval A. Kallerson of Gladstone.

Returning Monday to the creek, Jack Trygg caught six more trout. One was described as "all colors"—probably a rainbow trout?

No doubt many trout fishermen of Gladstone will be surprised to know they have a good fishing stream right in their own backyard—but so small they have overlooked it all these years. But brook trout, including some large ones will be found lurking in tiny streams.

Only requirement for trout is that the water supply be constant, the temperature cold. Apparently the un-named little creek is suitable trout water.

* * *

COMING BACK—Perhaps it is too early to draw any conclusions, but fishermen out of Fairport and Fayette report catching a few —a very few—lake trout this spring.

Of three trout taken in the nets of one commercial fisherman, one was legal sze.

As most people of the Great Lakes region know the lake trout have been practically eliminated by the inroads of the parasitic sea lamprey. This is an unlovely eel-like creature that fastens its mouth to the fish and sucks its blood.

* * *

MEASURE OF CONTROL—The U. S. Fish and Wildlife Service is conducting studies to determine an effective way of combatting the lamprey.

Over at Squaw Creek just west of the county road to Stonington the Fish and Wildlife Service has set up a lamprey weir and electric shocking device that is supposed to either count or decimate the lamprey ranks—we are not sure which.

In any event the government is out to do something toward eradicating the fish-killing pest. The results may not be known for years—and perhaps by that time the lake trout may make a comeback on their own.

Cigarette Tax Ruled Illegal

ST. JOSEPH, Mich.—(AP)—Circuit Judge Chester P. O'Hara today held a portion of the Michigan Cigaret Tax act unconstitutional.

And he said the entire law, which puts a three-cents-a-pack levy on cigarets, may be invalidated by the state supreme court when it reviews his ruling.

Judge O'Hara, visiting here from Wayne county, handed down the decision in quashing charges against five Detroit area men. They were accused of conspiring to violate the act by bringing a truckload of cigarets into the state without paying the tax on them.

Four of the five were arrested at nearby New Buffalo last Dec. 15, shortly after they had brought the cigarets from Missouri across the Michigan state line. They are Angelo Bonnacci, 38, of Detroit; Dominic Asta, 27, of Detroit; Paul Infantino, 27, of Roseville, and Durrell Meadows, 38, of Dearborn. Bonnacci was driving the truck and the other three were guarding the shipment in a car trailing behind.

The fifth defendant, Peter Orlando of Detroit, owned the car but was not with the others.

Judge O'Hara ruled that the shipment still was in interstate commerce when the men were stopped. Therefore, under the constitution he said, it was not subject to state law and could not be taxed until it reached its destination—presumably Detroit.

The judge said the tax could not rightfully be applied until the cigarets have "come to rest" after interstate shipment and placed in intrastate commerce The smoker thus would not save any money because the tax could be legally applied at that stage, he said.

The act, which nets the state about $22,000,000 annually for use in paying the state's soldier bonus, has no "saving" clause. This is a provision which saves the remainder of a law's provisions in case one is thrown out by the courts.

Judge O'Hara said he made no ruling on other provisions of the law. But he pointed out that on many cases the invalidation of one clause in a law without a savings clause throws out the entire act.

He said he would be willing to regard the remainder of the law as constitutional.

William Elmer, assistant attorney general who handled the state's case, said the ruling would be appealed immediately to the state supreme court. Judge O'Hara said it would be up to this court to determine whether any or all of the law should be thrown out.

He said that under his ruling cigarets imported into Michigan for use directly by the consumer would not be subject to the tax.

American MP Shot By Border Police Of Eastern Germany

BERLIN — (AP) — An American military policeman was shot and wounded by an East German police border guard on the outskirts of Berlin today.

Maj. Gen. Lemuel Mathewson, U. S. commander in Berlin, imediately denounced the shooting as a "barbaric and undisciplined violence by police under Soviet control." He demanded the Russians "severely punish the offender."

A bullet pierced the military police jeep and wounded the driver in the leg. The engine also was damaged.

The shooting occurred "without warning or provacation," while the Army vehicle was on routine official patrol on Machnower Strasse near the U. S. sector-Soviet zone boundary, Gen. Mathewson said.

Officials Of Six Steel Companies Meet With Union

tions of the Wage Stabilization Board. This provided a 26½-cent-an-hour package to steelworkers whose hourly earnings now average $1.95.

Steel's best offer was a 17½ cent package.

Here was the major impasse to settlement—but spokesmen for the union and for the industry who refused to be identified said there was plenty of room to move around in argument.

Stockpiles Dwindle

The strike slowly is biting into America's industrial potential. Already more than 32,000 workers in allied industries have been laid off: the miners who dig the soft coal to fire the steel furnaces and some of the railroaders who haul the finished steel to market.

But something even more ominous loomed ahead. Defense Production Administrator Henry H. Fowler, who took over the job only yesterday, predicted a shortage of some types of steel for certain military projects by Friday. He declared:

"A stoppage of anything beyond four or five days would seriously interfere with production." An industry source in the steel city said Fowler apparently referred to jet plane output.

Actually there is a substantial stockpile of steel, estimated variously to be sufficient for 30 to 90 days' productiton.

But certain types of steel are in shorter supply and Fowler predicted a month-long strike would force "some major manufacturing companies to shut down." These he declined to specify.

SENATE TAKES HAND

WASHINGTON — (AP) — The Senate jumped into hot debate today on a bill that would (a) forbid strikes in critical industries for 120 days, (b) set up a board to recommend settlement terms, and (c) allow the President to seize the industry if the terms were not accepted.

The measure was offered by Sen. Maybank (D-SC), chairman of the Senate Banking Committee as an amendment to the expiring economic controls law.

Thus, Congress and the White House started moving almost simultaneously on plans for settling the two-day-old strike of CIO steelworkers. The walkout started Monday after the Supreme Court struck down President Truman's order seizing the steel mills.

IDLENESS SPREADS

PITTSBURGH — (AP) The number of workers idled in the nation wide steel strike climbed to near 725,000 today with the White House summoning both industry and union leaders to a conference in Washington tomorrow.

In addition to 650,000 members of the CIO United Steelworkers who refuse to work without a contract, also idle—or under layoff orders—are 26,000 coal miners and more than 35,000 railroaders.

Mines Stop Work

River towboat crews and other workers in allied industries swell the total idle to near 71,000, including some 10,000 iron ore miners who stopped work in sympathy with the steelworkers.

The steel walkout cut production of defense-important steel by about 90 per cent.

Freedoms Foundation Backs Scout Drive To Get Out The Vote

LOS ANGELES—(AP)—A massive plan to "get out the vote" for the November election—spearheaded by the Boy Scouts of America—has been endorsed by Freedoms Foundation.

Under the plan Scouts will hang paper Liberty bells on an estimated 30 million front doorknobs across the nation on Nov. 1 And on election eve Scouts will ask every householder to turn on his porchlight if he intends to vote.

The big drive was outlined at a meeting of business and civic leaders here yesterday by Kenneth D. Wells, president of the Freedoms Foundation, which is working with the Scouts in the undertaking.

Wells said Scouts have already prepared and are circulating placards urging citizens to register and vote.

Gov. Williams Blames Republicans For Mine Disaster At Ironwood

GRAND RAPIDS, Mich.—(AP)—Gov. G. Mennen Williams charged before the state CIO convention here last night that the Republican-controlled state legislature was to blame in part for the iron mine disaster at Ironwood.

The legislature failed to provide for mine safety as he had requested, the Governor asserted.

Three of five miners trapped by a cave-in at the Penokee mine in the Upper Peninsula were rescued yesterday. The body of a fourth miner was found later and search continued for the fifth, feared to be dead.

Gov. Williams told the convention that a group from the mine country went to Lansing to seek legislation to safeguard lives in mines but couldn't get in to see their own representatives.

"The best thing they could get," the governor said, "was the promise of a study committee. So now we are reading in the papers of death in the mines because in the Republican program the interests of big businss always come first."

The governor also attacked the legislature for rejecting his corporation tax proposal.

The convention went on record opposing the state's new trucks act which requires Communists to register with the state police.

JUST MAKING HAY

LANSING — (AP) — Prominent Republican senators accused Governor Williams today of trying "to make political hay" out of the Ironwood mine disaster.

Senators G. Elwood Bonine (R-Vandalia) and Edward Hutchinson (R-Fennville), leading members of the Senate Labor committee, said: "If the governor was so interested in mine safety why didn't he have a bill introduced."

The only mine legislation in the 1952 session was a bill filed by Rep. Louis Mezzano (D-Wakefield) and Rep. James Goulette (R-Iron Mountain) which would have placed the mine inspections under the department of labor.

Mine inspectors now are elected by counties. The bill died in the House Labor committee.

Williams in his message to the legislature in January referred to the problem in these words: "I urge the passage of legislation requiring more extensive use of safety devices in places of employment, particularly in iron and copper mines."

City Drug Store Shows Interior 'New Look' Today

A completely redecorated sales room went on view today at the City Drug Store after two weeks of refurbishing and remodeling.

New counters and a new soda fountain have been added to enlarge the facilities of the these departments and of the prescription section, according to business manager Joseph Cota.

Other new facilities will allow the store to carry a more varied line of merchandise.

Streamlined lighting with the modern "daylight bulb" and repainting in a color scheme of grey and red complement the interior decorating.

Candidates Still Neck-And-Neck In South Dakota Race

margins in South Dakota and California yesterday. The lanky Tennessean thus picked up eight votes in South Dakota and 68 in California.

These—plus the 150 he already had and 18 previously-pledged Maryland delegates named yesterday at a convention—ran Kefauver's total to 244 in the Associated press tally of Democratic delegates. Nearest him is Georgia's Sen. Richard Russell with 86½, followed by Mutual Security Administrator W. Averell Harriman with 85½.

Democratic nomination at the July 21 convention requires 616.

Like Kefauver, California Gov. Earl Warren held a 2-to-1 lead in the West Coast state's primary. And Republican Sen. William F. Knowland, in what was interpreted as a slap at the Truman administration, apparently was nominated by both parties, assuring his election.

Knowland, a Truman critic, beat Democratic Rep. Clinton McKinnon, a Truman supporter. They were entered in both party primaries under California's crossfiling law.

Russell Backer Trails

Kefauver's opposition in California was a ticket headed by Atty.-Gen. Edmund Brown. Warren's rival ticket was pro-Taft but technically pledged to Rep. Thomas H. Werdel of California.

In Alabama's primary, a firm supporter of Russell was trailing a candidate who says only that he "leans" to the Georgian. The contest will round out Alabama's 22-member Democratic delegation. Russell and Kefauver each have seven. The others are uncommitted.

Taft, meanwhile, has a luncheon speaking date tomorrow in Buckhannon, W. Va., that will give him an opportunity to comment on whatever Eisenhower says today.

Rich Valley Flooded

SAN FRANCISCO — (AP) — Flood waters spread over more than 77,000 acres of rich farmlands in California's central valley today as summer-like weather melted a record snow pack in the high Sierra. The Tule River ripped out a section of dike near Corcoran.

Not one single year has passed since the "war to end wars" (World War I, 1918) without one or more conflicts.

Harlan L. Turner, Los Angeles, Dies

Harlan L. Turner, former resident of Escanaba, died May 18 at his home, 1714 Figueroa St., in Los Angeles. He was 58.

Mr. Turner was employed as a civil engineer in Escanaba. The family moved to California in 1943. He was a member of the V. F. W., the D. A. V. and the American Legion.

Services were held at Los Angeles and burial made in Riverside, Calf.

Surviving are his wife and four daughters, Mrs. Lloyd (Helen) Pearson, Mrs. Earl (Dorothy) St. Martin, Mrs. William (Mildred) Bellefeuille, and Mrs. Frank (Mary Ann) Stewart.

Wall Street

By RADER WINGET

NEW YORK—(AP)—Strength in a handful of rails today put a substantial prop under the stock market.

Atlantic coast line railroad was up more than 5 points at times and a few other rails gained from 1 to 3 points. The bulk of the carriers, however, were ahead fractionally.

Elsewhere the upside extended by fractions to between 1 and 2 points. Losses were virtually all fractional.

Coast line was evidently spurred by highly favorable earnings reports and a Wall Street belief that a split was not out of the question. At its best today it traded between 113 and 114 points. Most of the other big rail gainers were in the higher price brackets where splits are possible.

Steels held small gains in quiet trading as steel industry management and labor responded favorably to a White House call for a conference tomorrow aimed at ending the three-day-old strike.

Aircrafts also were higher for the second straight day. They started up yesterday about the time General Eisenhower in a news conference pledged his faith in American military air power.

Higher prices were paid for Seaboard Air Line Railroad, Illinois Central, U. S. Steel, American Telephone, Kennecott Copper, Douglas Aircraft, and Allied Chemical.

Banners Of Reds Destroyed On Koje In One-Two Raid

KOJE ISLAND, Korea — (AP)— American infantrymen and tanks today knocked down and burned Russian, North Korean and Chinese flags in three Communist prisoner of war pens, then hauled out unruly prisoner leaders.

Not a shot was fired. The Reds submitted meekly although only a few hours earlier they had boasted they would "fight to the death."

The smartly-executed one-two punch at Communist prisoner disobedience destroyed all Red banners that flew today over this once riot-torn island. But camp authorities expect more may appear tomorrow.

Seventeen anti-Communist prisoners, their hands bound, were rescued from one compound.

The soldiers marched 75 other POWs out of a second compound. The group included five Red leaders and possibly some anti-Reds.

A few tear gas grenades were thrown as the American soldiers rushed into the barbed wire enclosures. Later they destroyed POW guard huts with flamethrowers.

Troops of the U. S. Second Division's 38th Regiment executed the operation. Their Commander, Lt. Col. William F. Kernan, San Antonio, Tex., commented:

"We can go in any of those compounds anytime we want."

Brig. Gen. Haydon L. Boatner, Koje commander, personally directed two of the operations from a machinegun tower. It was another step in his campaign to bring order inside prisoner enclosures . . . and the fifth time tank - led troops had struck at POW disobedience.

They'll Do It Every Time By Jimmy Hatlo

We Are Losing Sense Of Humor

By ROBERT C. RUARK

NEW YORK—I am sore afeared for the national sense of humor, which should embrace an ability to laugh at oneself as an individual and also at the mob. It seems to me that the mail brings testier and testier responses to some of my feeble sallies in the line of attempted fun-making or broad burlesque, and that the customers' chief tendency is to play it straight.

You know full well that delicate sarcasm or too little tongue in the cheek is not a practicable journalistic commodity, but when you do rear back and commit an obvious outrageous exaggeration or a piece of pure slapstick, seems as if less and less, people are getting the point. Mad they get, or hurty, feelinged they get, but laugh they don't .

It disturbs me, because I eat off the occasional snicker I may be able to pry out of a piece of copy-paper, and I am getting to where I'm afraid to kid me or anybody else too roughly. We do not seem to be able to take it so good any more, and this certainly applied to me, or I wouldn't be doing this piece.

Our Sense Of Humor

The last month's mail has contained outraged yelps on pieces concerning baseball, dogs, diets, cigar-smoking ladies, ulcers, Texas airplanes, cats, and kings. I write a piece laughing about the modern tendency to cry, musically, and you would have thought I had assaulted motherhood.

It seemed we used to be noted for a national sense of humor. Will Rogers used to punish the people sharply and with more acid than you remember; today the Commies would be calling him a Fascist, and the one hundred per cent teetotal Amurricans would be calling him a Commie, and all for the sin of telling his truths with a touch of honest vinegar for dressing.

I have an uneasy feeling that one day everything will be sacrosanct and he who jeers is going to get lynched. You are bound hand and foot by pressure groups who flood you with propaganda, and the propaganda-drenched individual screams in anguish if you point up the fact that man is not a little silly in the conduct of his life.

The satirical approach to the foibles of mankind is a pretty necessary sauce, since it keeps the man from becoming over-stuffy and extra-sot in his ways. Kidding is not only fun for the kidder, but it sometimes prevents those on high from taking themselves too seriously. Kidding was forbidden in Germany under Hitler; it was forbidden in Italy; and I am sure that nobody kids anybody in Russia today. Not out loud, anyhow.

Racial Humor Forbidden

Our best basic humor came from the diverging folk of many colors and creeds who built the country, but racial and religious humor is largely forbidden today, and I am one who does not think that any race or any religion is above a little gentle fun-poking at its flaws. Written dialect is dead; today you would have no Mark Twain, no Octavus Roy Cohen, no Roark Bradford, no Montague Glass. The sensitive groups would boycott them as subversive, or something.

An example of what I mean is that a night-club fellow named Buster Dees, down in Houston, has run up a highly amusing and gently' sarcastic string of jingles, which he calls "Texas Calypso." These poke gentle fun at the Texas big shots, and I am momentarily expecting to hear that Buster has been lynched or at least shot for being so irreverent out loud. Ten years ago I would have just figured that ditties as so-so- night-club stuff.

The Lord knows we have not had much to laugh about lately, since the day's diet of news seems to pile horror on horror and stupidity on stupidity and desperation on bleakness. But if they take the right of man to kid his own stupidity, his own fioble, away from man, that man might just as well ask them to drop it now.

This is by way of being a gentle reprimand to us all. We're all pretty silly little scurriers, and please let's not lose sight of our own ridiculousness, no matter how big, or how little, you are out there.

1st State UCT Convention In U. P. Here This Week

Dinner meetings at the Knights of Columbus club Friday and Saturday nights and several smaller group sessions highlight the three-day program of the fifty-ninth annual convention of the Michigan United Commercial Travelers Association in Escanaba this week.

The convention, first of its kind ever to be held in the Upper Peninsula, will open with a reception and registration in the Delta hotel at 5 tomorrow afternoon and executive and finance committee meetings in the Delta at 7 tomorrow evening.

With the Michigan Council and Auxiliary holding several separate meetings, such sessions will be held in the Escanaba Council UCT club on North 23rd street, the Elks club, K-C club, St. Joseph's Church basement and the House of Ludington.

Principal Speakers

Flavel Hyman, of Columbus, Ohio, national headquarters of UCT, will be a principal speaker at the Friday night dinner. J. L. Collins, Texarkana, Ark., also will speak. They will be introduced by G. Frank McConnell, Lansing, toastmaster and public relations chairman.

Edward Harkins Jr., of Escanaba, will be master of ceremonies at the Saturday night dinner at which Prof. Russell E. Oakes, of Racine, Wis., will head the program. Professor Oakes is a professional entertainer and speaker. The convention ball will be held in the K-C clubrooms Saturday night, beginning at 10, with Ivan Kobasic's orchestra providing the music.

600 To Attend

Approximately 600 delegates, members and guests from Michigan councils will attend the convention here. Escanaba is the host council and it will be joined in welcoming the Lower Michigan members by the three other U. P. councils at Iron Mountain, Ironwood and Marquette.

Arrangements for the state convention are being made by several committees headed by Francis T. Rooney, general chairman, and Clarence Larson, assistant general chairman. Hilmer E. Johnson is serving as secretary-treasurer of the convention committees.

State Plans To Buy Fishing Access Site On Millecoquin Lake

LANSING — (AP)—The conservation commission plans to consider at its June 11 and 12 meetings the purchase of 1,587 acres of land to expand state game, recreation and forest areas and to add a new fishing access site.

The meeting is set for the Higgins Lake training school.

If approved, additions would be made to the Lowell, Dansville, Middleville, Barry, Rogue River and Quanicassee game areas, the Holly recreation area and the Fife Lake State Forest.

The proposed new access site is on Millecoquin Lake, Mackinac county.

Also up for consideration will be a proposed transfer of part of the Interlochen State Park to the National Music Camp, a land and timber exchange with the Tahquamenon boat service, and the lease of land in the Pinckney recreation area to the Portage Trails Council of Boy Scouts.

Fish That Got Away Costs Man His Life

CHOUTEAU, Okla.—(AP)—The fish that got away cost 60-year-old Roy Vernon Young of Locust Grove, Okla., his life.

State Trooper A. M. McDonald said Young was fishing with two companions three miles south of Chouteau in the Grand River. His companions said a fish pulled Young's pole from his hands.

Young dived in the water to retrieve it and went under. His two companions pulled him out about 50 yards downstream.

They took him to a Claremore hospital where he was pronounced dead on arrival.

Rising Lake Holds Up Final Plans On Stonington Bridge

By ANDY P. OLAFSON

Well not haveing heard for Severell Months anything with Regards to the Bridge acrost the Bay to Stonington you may be thinking I have sitting Idolly not doing nothing but such is not the case I have had the old Noodle clicking all the time & the fact I have stuck to it for 30 yrs. now proves I am not giveing up over about 3 mi. of watter but the hold Up now is not on acct. how wide the water is but how high it is and the town of Gladstone is all most nearly under Watter now & if we was to start the Bridge from there now the only safety place for it would be on the Bluff about half mile back & also Portage Pt. is sunken deeper in the hire Watter so we have to wait & see how high that Watter is go to come Biffore pouring into it a lots of the Tax Pairs moneys like the New Deal use to do by way of the W. P. & A and I sort of have been waiting for a Republican Predsident to be Illected so he could get the Credit for it but I have been Waiting sints 1932 & 20 yrs. is long enough so now either a Republican gets Illected or I go Aheads with the Bridge any how Regarldless on acct. of moneys seems to be of no acct, any hows so why not put it into a good Permrament Emporovement & Investment for the Future & the way it looks now we may got to build a Flotting Bridge if that Watter is Riseing ever Day

Air Force Veteran Takes Over Command At Selfridge Field

MT. CLEMENS, Mich.—(AP)—Lieut Colonel James E. Johnson, a 37-year old air force veteran who served with the air transport command during World War II, will assume command of Selfridge Field Air Force base here Saturday.

Col. Johnson will succeed Col Ernest J. White, Jr., who has been ordered to duty with the 51st interceptor wing in Korea.

Col. White replaced Col. Francis S. Gabreski, one of America's leading air combat aces, as commander of a fighter group at Selfridge when Gabreski went to Korea. It is expected that Col. White will replace Gabreski as wing commander of the 51st.

During World War II, Col. Johnson served as project officer for the famous air lift over the "hump" in the China-Burma-India theater.

DR. EDWARDS' OLIVE TABLETS

AGONIZED by STOMACH DISTRESS GAS, INDIGESTION

I took O-JIB-WA BITTERS for gas, indigestion, bloating and heartburn and it really helped me says Mr. Joseph Blazek, 207 N. 10th St., Escanaba, Michigan. Unfortunately, I suffered six years before I tried it.

"I'm so happy with the results that I received using O-JIB-WA BITTERS that I want to publicly tell others how wonderful this medicine really is. I've been troubled with my stomach for over six years. Almost everything I ate turned to gas and I would have to take baking soda to get some relief, but the next day, I suffered as bad as ever. At times, I would bloat up so that it was hard to catch my breath and I was always suffering from heartburn. The only food that agreed with me was food boiled so long that the taste was gone and wasn't fit to eat. Several friends recommended O-JIB-WA BITTERS so highly that I decided to try it, and am glad to say that in just a week, I was much better. Now, I am completely better, and can eat anything I want without the slightest fear of suffering from gas and indigestion. O-JIB-WA BITTERS did wonders for me." Available in three economical sizes at all leading drug stores and especially recommended by:

Stopped Drinking, Now He's Aged 116

ELBERTON, Ga.—(AP)—Lucius Darby, born a slave, says he quit drinking corn liquor when he was only 70, "afore I got old."

That, he adds, is one reason he is still alive and healthy at 110—or 116. Other reasons are his liberal use of chewing tobacco and eating what he pleases.

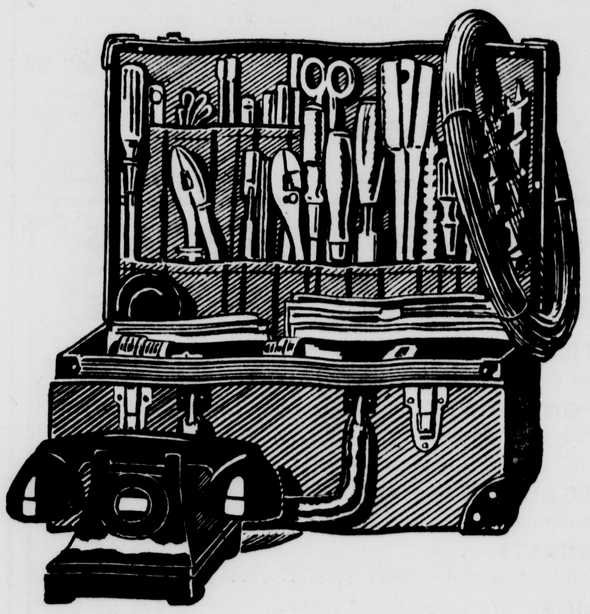
Lucius was the slave of a doctor in Augusta, Ga., until the Civil War freed him. Until three years ago, Lucius planted and tended a watermelon patch each summer. Since then, he contents himself with chopping wood and tending the fires in the home of the people he lives with.

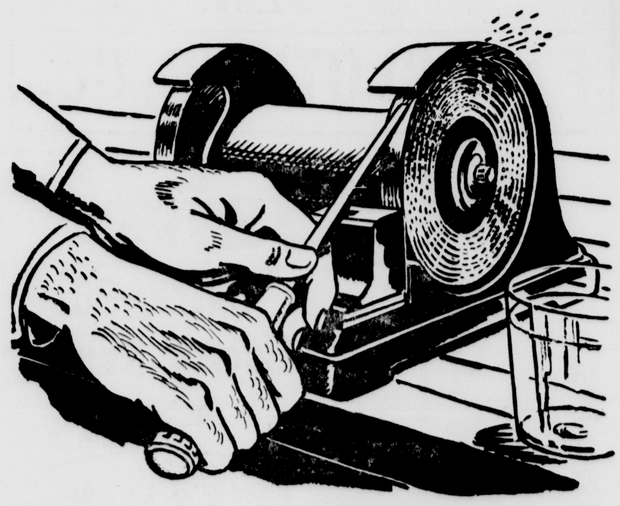
He thinks he is 116 but county welfare officials say he is only 110 or 111.

More than 50,000,000 paper and linen collars were made in Troy, N. Y., in 1872.

Why does the telephone company...

bother to repair worn-out tools?





Here's the answer:

Repairing worn-out tools

saves Michigan Bell thousands of dollars in replacement costs every year. Take, for example, a screwdriver with a tip that's worn and rounded from use. Instead of being scrapped it is ground down like new.

Hammers, axes and hatchets

can often be saved by fitting with new handles. Drills, too, can be sharpened. No tool is sent to the scrap pile by the telephone company unless the cost of repair is more than the tool is worth.

The money saved on repair of a single tool may not amount to much. But on thousands of tools such savings add up. And any saving is important to Michigan Bell because it helps keep down the cost of your telephone service.

Ice Cream Parfait Pie Is Delightful Summer Dessert

A fabulous discovery in summertime pies, an idea that spells simplicity itself, is being revealed all over the country.

The secret lies in the combining fruit-flavored gelatin, ice cream and fresh fruit to make a perfect filling for a flaky, tender pie crust. This new pie is known as "ice cream parfait pie," for ice cream is the ingredient that lends the magic of ease and speed to this new recipe.

Party Time Parfaits

You're in for a thrill when you discover how wonderfully easy to make these party-time parfait pies are. The actual time it takes to put together four simple ingredients is about 5 minutes. Chilling time, which on other gelatin pies takes 2½ to 5 hours, is cut way down.

There's no cooking of filling, no eggs to beat, no custard to cook, no cream to whip. All you do is dissolve the fruit-flavored gelatin in hot liquid, add a pint of ice cream and stir until melted. Chill slightly, fold in fruit or any other flavoring and turn into a flaky pie shell to set. For utensils, all you use are a saucepan, a measuring cup and a spoon. The only thing you measure is the liquid.

The finished pie is one to make you proud. It's creamy as can be, yet light and fluffy. The filling actually enhances the flavor of fresh fruit. The colors are cool, appealing pastels.

It's Versatile

Ice cream parfait pie is so wonderfully versatile, too. Hundreds of exciting flavors can be made from one basic recipe, simply by alternating the flavor of the gelatin, or ice cream, or the kind of fruit or juice you use. Fresh, frozen or canned fruits go into this pie equally well.

Blueberry Parfait Pie
Makes 8 or 9-inch Pie
Flaky Pastry

1 cup sifted enriched flour
½ teaspoon salt
½ cup shortening
2 to 3 tablespoons cold milk

1. Sift flour and salt together. Cut in shortening until particles are the size of small peas.

2. Sprinkle milk over mixture, tossing lightly with fork until dough is moist enough to hold together. Form into a ball.

3.—Roll out on floured pastry cloth or board to an 11-inch circle (10-inch circle for 8-inch pie). Fit pastry loosely into 8 or 9-inch piepan. Fold edge to form standing rim; flute. Prick crust with fork.

4. Bake in hot oven (425 degrees F.) 10 to 12 minutes. Cool.

Blueberry Filling

1¼ cups water*
1 package (lemon-flavored gelatin)
1 pint vanilla ice cream
1½ cups fresh or thawed frozen blueberries

1. Prepare pie shell as directed above.

2. Heat water to boiling in 2-quart saucepan. Remove from heat.

3. Add fruit-flavored gelatin; stir until dissolved.

4. Add ice cream, cut into pieces, to hot liquid; stir immediately until melted.

5. Chill until mixture is thickened but not set, 15 to 25 minutes.

6. Fold in blueberries.

7.—Turn into cooled, baked pie shell. Chill until firm, 15 to 20 minutes. Top with whipped cream and grated lemon rind or additional berries, if desired.

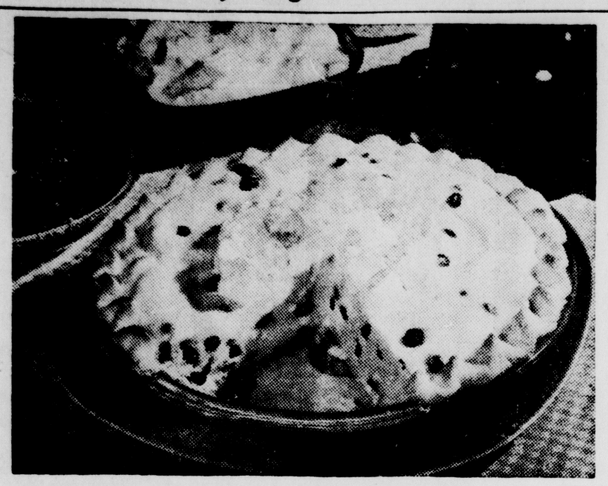
*For faster setting, reduce water to 1 cup.

Poorer Grades For Younger Children

TRENTON, N. J.— (AP) —Children who enroll in school at too early an age earn the poorest grades, says H. M. Davis, supervising principal at River Edge.

Writing in the New Jersey Educational Review, he reports studies of first grade pupils under 6 show a higher percentage of low marks than those over that age.

"A child of 5 is 25 per cent older than one who is 4," he writes. "To insist that a 4-year-old enter school and compete with 5-year-olds, is the same as to insist that a 16-year-old boy fight with a 20-year-old men not once or twice, but day after day."



EVEN BETTER than fresh blueberries and cream is blueberry parfait pie, one of the exciting members of a brand new family of summertime pies.

Jealous Wife On Defensive Is Looking For Trouble

By Elizabeth B. Hurlock, Ph.D.

The greatest fear of a jealous wife is that she will lose her husband to another woman. To prevent this she tries to build barriers around him so he can see no other women nor they him. But it never works. The young bride who wrote the following letter is using the wrong tactics:

(Q) "I am 20, have been married nearly a year, and am very happy so long as my husband is right where I can see him. If he is out in the afternoon, my imagination gets the best of me and I think he's with a girl. If he says 'Hello' to a girl when I am with him, I accuse him of liking her. I've even gone so far as to turn the television off if there is a girl on the screen. I've never had any reason to be jealous but so many older people have told me things that have happened to them that I fear all the time someone will take him away from me. Can you love a person too much?"

(A) You cannot love a person too much if it is the right kind of love but yours is not the right kind. It is a possessive, selfish love that will make you lose the very thing you want most in life, your husband's love.

There is always a chance for a wife to lose her husband to another woman. This warning has put you on your toes and kept you there so that this would not happen to you.

Instead of taking the warning sensibly, you have allowed yourself to become so afraid that you will make it happen. No man will stand for jealous accusations permanently. Your husband may take them as a sign of your love now but, as time goes on, they will irritate him and make him feel that you are petty and childish.

Instead of being afraid that other women will steal your husband from under your nose, why not try completely new tactics? Talk about the charms of other women, show an interest in beautiful girls on TV or in the movies, and be cordial to your husband's old friends, even if they are charming girls. Never ask him where he has been if he comes home late, but let him explain why he held you up for dinner. As things now stand, you are playing the defensive game and you can rarely win that way. Shift to the aggressive and your chances of winning will be greatly increased.

If you have aa problem about family or friend, ask Dr. Hurlock to help you. Write in care of this newspaper.

Mix soft cheddar cheese with a little mayonnaise and crisp crumbled bacon for a delicious sandwich filling.

Crisp Spring Vegetables Are Available In June

Bright crisp spring vegetables are much in evidence during June They are coming from the market and home gardens to add variety and flavor to our meals says Mary Bodwell, food economist for the agricultural economics department, Michigan State College.

Green onions, radishes and red table beets are among the first to arrive and add the springtime note. They make excellent relishes and go well in many spring and summer salads.

Look for green onions with bright green tops and 2 or 3 inches of white at the root. Store them in the refrigerator tightly covered. A few sprigs of parsley in a small glass of water will help to absorb any odor that might escape and flavor other foods.

Select radishes that are not too large, are free from growth cracks and have fresh, green tops. The smaller radishes are apt to be milder in flavor and free from pithiness. Radishes which grow rapidly will be more mild than those that grow slowly, so you'll find them at their best before the weather becomes hot.

Both the tops and roots of red table beets are edible in either the raw or cooked form. Tender beet tops make a crisp green salad or tasty cooked greens. The beets themselves have many popular uses in cooked form—as Harvard beets, pickled, or as a hot buttered vegetable. Their crisp, bright appearance and mild sweet flavor make them equally acceptable when shredded raw and used in salads or as garnishes.

Buy bunches of red table beets that are uniform in size — they will cook done more evenly—and with crisp bright tops. Five medium-sized beets will weigh about a pound and give you 1 3-4 cups of cooked beets. A teaspoon of vinegar added to the cooking water will help to brighten the color and will not harm the food value or flavor, says Miss Bodwell.

Escanaba Court Award Cut Down

LANSING — (AP)—Prof. Edward V. Sittler, a German who was fired from the faculty of the Michigan College of Mining and Technology on the grounds he had been a Nazi sympathizer, lost a state supreme court fight yesterday for his full salary.

He sued for $3,186, contending his contract had been broken. He was employed from Sept. 19, 1949, to Nov. 10, 1949, as a professor of German.

The court upheld the state court of claims' decision that Prof. Sittler did not have a valid contract. It said he had only a letter from Prof. B. B. Bennett, head of the school's language department, and that Prof. Bennett had no authority to bind the board of control of the mining school.

In another decision, the supreme court cut the damages awarded Annie T. Kelly for a back injury suffered Aug. 25, 1949, in a fall in the Red Owl store in Escanaba. The jury's award of $12,000 was reduced to $5,000 on the grounds that the original verdict was excessive.

Class Of 3,172 Will Graduate Sunday At Michigan State

EAST LANSING— (AP) —Michigan State College will graduate 3,172 students Sunday at its 94th commencement day exercises.

Paul G. Hoffman, president of the Ford Foundation and director of the Economic Cooperation Administration from 1948 to 1950, will be the principal speaker.

The commencement services will be at 5 p. m., in Macklin field stadium. Twenty thousand persons are expected.

Among the new graduates will be 2,600 undergraduates and 562 receiving master's and doctor's degrees. More than 400 of the group have been commissioned in the Army and Air Force and will enter service in a few weeks.

On Saturday 1,500 alumni are expected to join in alumni day services, including dedication of the $200,000 alumni memorial chapel.

Young Mother Loses Weight With Rennel

"I am sure that many mothers would take Rennel if they knew the good it would do for them," writes Mrs. J. Murphy, R. No. 4, Owosso, Mich. "I am 24 years old and have three children. The birth of each one brought me a lot of excess weight and bloat which caused me to feel tired and run down. A few bottles of Rennel Concentrate not only made me feel better but the bloat and weight gradually disappeared. Just recently with the help of Rennel I lost nine pounds in twenty days. I think Rennel is a wonderful product and it will always be Rennel for me when I am in need of it."

It's amazing how quickly you can lose unsightly fat at home. Obtain liquid Rennel at your druggist, mix with grapefruit juice as directed and take two tablespoonfuls twice a day. That's all there is to it. If you do not lose weight with the very first bottle just return it for your money back. You need never know a hungry moment while reducing with Rennel.

The salutatory was presented by Barbara J. Berg and the valedictory by Pat Hanson. Janet Sinclair, president of the senior class, spoke briefly and there was a response by Richard Sundling, president of the junior class.

Presentation of the Class History, Will, Giftatory and Prophecy was in the form of a playlet with the scene laid in an Indian village. Medicine Men Christine Rabitoy and Cora VanDamme gave the history. "Red Fire" Barbara Berg, "Rain Washum Face" Pat Hanson and "Little Cackling Hen" Beatrice Brusoe gave the class will. "Chief-Hole-in-Head Roger Beauchamp, "Maiden Dirty" Janet Sinclair and Maiden Nev-Bloomen" Sue D'Amour handled the Giftatory and "Maiden Too-Young" Pat Young and "See-um Two-um" Kay DeHooghe and a council of medicine men did the class prophey.

Pat Hanson presented a difficult cornet solo, "Willow Echoes," with Beatrice Brusoe at the piano and the band was heard in three numbers during the program.

Crippled Children Work Is Explained

An interesting and highly informative talk on the Crippled Children Commission of Michigan and how it functions was presented by Dr. A. H. Miller; coordinator for the commission in the Upper Peninsula, before fellow Rotarians at the weekly luncheon meeting at the Yacht Club Monday.

The commission operates under two legislative acts, one known as the Afflicted Children's Act, the other as the Crippled Children's Act.

Twenty-three hundred, forty-one children have received aid through the Crippled Children commission and of this number 340 have been from Delta county, the largest number in any county of the U. P.

During the fiscal year 1950-51 slightly over $118,000 was spent in the work in the 15 Upper Peninsula counties and of this amount $11,758.78 was spent on Delta county children.

Afflicted children may be cared for in any approved hospital in the Upper Peninsula and there are 17 of them. However, crippled children may be cared for only where there is an orthopedic surgeon and there is only one in the Upper Peninsula and that is at St. Luke's Hospital at Marquette.

St. Joseph's Hospital at Hancock and St. Joseph's-Lloyds at Menominee have beautiful physio-therapy wards to handle cases but lack orthopedic surgeons.

An experimental cardiac program has been under way in 7 counties of the Upper Peninsula for the past 7 or 8 years. A major phase is to search our rheumatic fever patients so that the heart condition may be determined and steps taken so that they may lead normal, useful lives.

Results of the entire program have been good and useful citizens have been made of many persons that otherwise might have become state charges.

As to whether the patient or his family has to pay, the speaker said the answer is yes and no.

Using a hypothetical case, Dr. Miller explained the procedure followed. Johnny has bad tonsils and his family physician makes application under the Afflicted Children's Act certifying that surgery is required. This goes to the judge of probate whose investigator is sent out to check with the family to determone circumstances. The head of the family is asked if he is able to pay any or all of the expense in connection with the case and if he agrees to pay a certain amount this will be the amount expected. The repayment may be made on the installment plan, if desired.

Repayment has amounted to 23 per cent in years gone by, the speaker said.

This year the legislature cut appropriations for the work, but a deficiency bill is expected to take care of the shortage.

Will Have Range Firing June 7-8

In preparation for the defense of a state rifle trophy won last year at Camp Grayling, members of the Manistique National Guard company will have their opening session on the rifle range on Saturday and Sunday, June 7 and 8, it is announced by Capt. E. J. Doyle, commanding officer.

Guardsmen are instructed to report at the armory at 8:30 a. m. Saturday. Range firing will begin as soon as the men arrive at the rifle range, located at Manistique Heights near the club building of the Manistique Rifle and Pistol Club and the Schoolcraft County Sportsmen's Club.

Firing will be in progress Saturday until 4 p. m. and on Sunday between 8:30 a. m. and 4 p. m. Guardsmen will fire the 30 caliber M-1 rifle Saturday and the M-1 rifle and 30 caliber carbine Sunday.

Cooking equipment will be transported to the range and noon mess will be served the men both days.

The second weekend of range firing will take place on June 21 and 22, and on June 28 and 29 an overnight bivouac is scheduled at the West Branch of the Manistique River, about 15 miles north of Manistique.

The company's heavy motor equipment is expected to arrive before the weekend bivouac, Capt. Doyle said. Sgt. Edward Leonard left yesterday for lower Michigan to obtain a two and one-half ton truck and a jeep, and more vehicular equipment will be received later.

During the weekend of June 14 and 15 Capt. Doyle and Warrant Officer William Cowman will be in the lower peninsula to attend a staff school.

Young men between 17 and 35 years, inclusive, who desire to join the Guards and participate in the range and bivouac activities are invited to apply now or later at the armory.

To Hold Hearing On Phone Rates

A public hearing on proposed rate increases in the Manistique and Gulliver exchange of the Michigan Associated Telephone Company will be held in Manistique on Friday, June 27. it was announced at an adjourned meeting of the City Council Monday night.

The hearing, convened by the Michigan Public Service Commission, will be held in the firemen's club rooms at the City Hall, beginning at 9 a. m.

In an application for rate increases filed with the public service commission last winter, the telephone company requested an advance in rates ranging from 70c to $1.05 for residential telephones and from 85c to $1.55 for business telephones.

Grand Chapter Head To Attend Meeting Of Royal Arch Masons

Paul Becker, of Bessemer, Grand Excellent High Priest of the Grand Chapter of Michigan, will attend a regular monthly meeting of Royal Arch Masons tonight at the Masonic hall. Also present at the session will be Don McEachern, of St. Ignace, district deputy.

The Mark Master degree will be exemplified at the meeting, scheduled for 7:30.

Tentative Budget Of $219,875 Is Approved; Public Hearing Monday

A public hearing on Manistique's tentative budget will be held at 7:30 p. m. next Monday, June 9, it is announced by Alex Robertson, city clerk.

The tentative budget, approved Monday evening by City Council, was set at $219,875 which is $43,368.50 higher than last year.

The portion of the budget to be raised by taxation, however, is only slightly in excess of last year's tax-raised total, and will require the same tax rate, 20 mills, based on an increased city valuation of $4,890,400.

Total to be raised by taxation is $97,808 compared to $96,506.50 raised by city taxes in 1951. The rest of the 1952 budget, amounting to $122,067, will come from various other city revenues, including sales tax diversion money, weight and gas tax payments and the city's state highway maintenance contract.

Non-Tax Revenue Higher

Estimated non-tax revenue this year is $42,067 higher than last year when the figure was $80,000.

Principal increases in the 1952 budget are in the general fund, which is upped $16,425.41, and the street fund, which has been increased $18,280.40. Decreases are recorded in the police and interest funds. Other funds are increased in varying amounts with the exception of the bond account which has been unchanged.

The general fund increase has resulted from salary and wage increases, a new account of $5,605.10 for social security, and a cemetery improvement appropriation of $4,478.59.

Various contributions approved in the general fund include $350 for the Top O' Lake Michigan Chamber of Commerce, $125 for the Santa Claus fund, $1000 for the Upper Peninsula Firemen's Tournament, $100 for the Schoolcraft County Potato Show, $250 for a Fourth of July celebration, and $300 for Christmas decorations.

Labor, Material Up

Increased labor and material costs and an appropriation of $4,200 for a North Houghton avenue flasher signal are responsible for a substantial share of the increase in the street fund.

Part of the decrease in the police fund is based on a decrease in the salary figure and the fact that last year $1,800 was appropriated for a police radio installation. The radio system was not installed but a figure of $600 is included in this year's budget to cover the cost of hooking up the city police car with the state police two-way radio.

The city recreation fund, which is $200 higher than last year, includes the following items: playground, $100; baseball field, $200; hockey rink, $200; skating rink maintenance, $1,200; basketball, $200; director, $1,300; miscellaneous and swimming, $750; city band, $1,000; ski area, $200; baseball equipment, $200; miscellaneous and trophies, $50. An item of $150 for women's athletics included in the 1951 budget has been eliminated.

$4,500 For Central Park

Included in the appropriations are a $4,000 figure in the health fund, for a new chassis for the municipal garbage truck, provisions for two 2½-ton trucks in the sewer and street departments, and $4,500 for Central Park development in the park fund.

A summary of budgetary figures follows:

General fund, $54,279.77.
Sewer fund, $12,375.
Street fund, $69,435.
Street lighting, $13,000.
Police fund, $19,372.
Recreation, $5,400.
Fire fund, $20,753.
Park fund, $5,625.
Health fund, $12,475.
Engineering fund, $3,546.08.
Bond fund, $3,500.
Interest fund, $113.75.

Job-Hunting Needs Aid From Alumni

NEW YORK— (AP) —Uncle Sam is forcing college alumni associations into the job placement field, says Dr. George H. Estabrooks, Colgate University's placement director.

By June, 1953, he says, the functions of the college placement office will be absorbed by the alumni office. At that time large numbers of college graduates will shift from uniform to mufti. The great majority of these men will be seeking their first contact with business.

Colleges and universities should set up co-operative slumni placement centers in the large cities to which the returning graduate can apply, he says. Some institutions such as Yale, Cornell and Colgate already maintain this service as a part of normal alumni relations.

George Donnelly, one-time Highland Club golfer now employed with Ford Aircraft in Chicago, continues his links activity in spite of a serious handicap. Four years ago Donnelly, son-in-law of the W. J. Anthonys of Escanaba, lost a leg in a railroad accident. Up to then he had been playing golf for many years and was shooting in the low eighties. It took a lot of practice and determination, but Donnelly has now worked his one-legged game down to the high eighties and low nineties. Donnelly is considered one of the better golfers in the Chicago division of his company. He led his team to within one stroke of the league championship last season.

Two Upper Peninsula athletes played a big part in the annual University of Minnesota Spring football game recently. Mel Holme of Stambaugh, a fullback, played on the Gopher Maroon team while Mickey McMahon, sophomore halfback from Iron River, starred for the Whites. McMahon and Holmes are former All-U. P. gridders and both were honored with all-state selections a few years back. McMahon is a 5-10, 165-pound speedster.

It's interesting to note that two of the Boston Red Sox players acquired by the Detroit Tigers in that big trade announced yesterday are among the leading RBI hitters in the American League. Up to yesterday afternoon's games, Walt Dropo had 27 runs batted in (second high in the AL) and Don Lenhardt had 24. Lenhardt had belted seven homers up to yesterday.

Coach Frank Miketinac's Escanaba Eskymo tennis team will try to break a Marquette strangle-hold on Upper Peninsula Class B net honors in the championship finals at Iron Mountain Saturday. The Redmen will be seeking their fifth straight championship. Escanaba is the only team to defeat Marquette in a dual match this season. Marquette has five dual wins to date, including one over the Eskymos.

Rotary Leading Little League

Except for a couple of unearned runs in the first inning, 11-year-old Gene Seguin was breezing along with a 7-2 lead when the roof caved in and the Rotary Little Leaguers paraded 12 runs across in the final inning to beat Kiwanis 14-7.

Rotary took over first place in the Little League standings by virtue of the win and the team needs only one more victory to equal the total number of wins posted all last season.

In another free-scoring contest the Lions jumped on three St. Joe Booster pitchers to pound out an 11-6 victory as Dave Nordin went the route for the Lions. Dick Arntzen, Ken Schwalbach and Dwayne Cartwright led the Lions at the plate. Cartwright poled out two homers and a triple.

Barks Host To Foster City In Makeup Game

Bark River will attempt to even its Tri County league record at two wins, two losses Thursday evening when Manager Leo Knauf's club entertains Foster City in a makeup game.

Knauf's team will be strengthened by the return of three players who were absent last Sunday when Bark River lost to Stephenson. Ted Cavadeas, Ken Tousignant and Bob Wickstrom, Bark River-Harris seniors, were on a class trip to Chicago but will be available tomorrow.

Remainder of the Bark River lineup will be intact and right-hander Joe Rademacher will get the starting pitching assignment. Rademacher has pitched all three of the Bark River games to date and has the club's 1-2 record.

Bark River will be facing the team which edged Escanaba 8-6 Sunday afternoon. Foster City has the same season record as Bark River and will be fighting to climb out of the two-way knot for seventh place.

The game was originally scheduled for opening day, May 11, when rain washed out the entire slate. Other games scheduled then, Perronville at Daggett and Hermansville at Stephenson, have yet to be made up. Escanaba played its rained out game with Felch last Sunday.

The Tri County also has a complete schedule of rained-out games resulting from bad weather on Memorial Day. No make up plans have been announced for any of those games.

Strikeout Ace Keeps Up Pace

GRAHAM, N. C. — (AP) — Ron Necciai tried to control an embarrassed grin and allowed, "the batters in this league are going to make it awful tough on me."

The Pittsburgh Pirates' 19-year-old strikeout sensation had just finished fanning 14 batters in his first starting assignment here last night for Burlington - Graham of the Class B Carolina League. Burlington-Graham beat Winston-Salem, 5-1, on Necciai's six-hit performance.

A 6-5 righthander, Necciai won national fame earlier this season when he struck out 27 in a no-hitter for the Bristol Twins of the Class D Appalachian League. After that, the Pirates looked him over during a brief stay at Pittsburgh and then jumped him to Class B.

The victory was his second since joining the club last week. He won in a three and one-third inning relief job against Reidsville Saturday night.

Counting his work with Bristol earlier in the season, Necciai now has 130 strikeouts to his credit in 57 innings. He has given up 19 hits and five runs.

Pony League Teams Practice Saturday

A Pony League practice game Saturday afternoon at 1 p. m., at Royce Park diamond will pit the Insurance Association team against the team managed by Ed Gauthier, without a sponsor as yet.

It will be the first practice clash for both teams in the newly organized league for 13-14-year-old boys.

Maki Hurls Two-Hit, 6-0 Softball Victory

GLADSTONE — Dick Maki hurled two-hit ball and fanned 10 batsmen to pace the Kipling softball team to a 6-0 victory over the Lions here last evening.

Stemac homored for the winners off Ray Wahowiak who went the distance for Lions.

The Trenary-Merchants game scheduled last night was postponed.

Brewers Come From Behind To Win 6-3

(By The Associated Press)

Milwaukee stayd out in front in the tight three-way American Association race Tuesday night with a come-from-behind 6-3 triumph over Toledo.

Louisville slipped into second place, two games off the pace, by beating St. Paul 6-2. Kansas City dropped to third, 2½ games out, losing 7-1 to Columbus.

Indianapolis beat Minneapolis 7-5 in yesterday's fourth league game.

Milwaukee was on the short end of a 3-1 count going into the eighth inning but went ahead on Hank Ertman's three-run homer. The Brewers added two insurance tallies in the ninth to whip the tailend Mudhens.

FIGHTS LAST NIGHT

Fort Dodge, Ia.—Glen Flanagan, 129, St. Paul, stopped Lem Thomas, 137, Chicago, 8.

Newark, N. J.—Jimmy Walker, 191½, Plainfield, N. J. outpointed Sandy McPherson, 235, Tulsa, 8.

Salt Lake City—Garth Panter, Dayton, Idaho, knocked out Pedro Jiminez, Los Angeles, 4. (middleweights, but exact weights not available).

Trinity Coillege, with a student body of less than 100 at the time, beat Yale in basketball by a score of 24-22 back in 1896.

Dells To Face U. P. S-Ball Champs Sunday

The Upper Peninsula Class A softball champions will appear in Escanaba for the first time Sunday night, facing the Dells of the American League in an exhibition game under the lights at Memorial Field diamond.

The Iron Mountain Liberty Loans copped the U. P. championship in the title tournament at Iron Mountain last Fall. The Iron Mountain club of this season includes most of the players on the championship roster.

Either Cobby Izzo or George Ropaich will be on the mound for the Liberty Loans. Joe Menghini will be catching, Granny Vaness at first, Jack Croci at second, Leo Paoli at short, Carmen Izzo at third, Willie Thomas, Ernie Polkinghorn and Don Burby in the outfield.

The Dells team is making its first appearance in the American League this season. Players are veterans who have been in softball here for many seasons, however.

Cliff Beaudin Jr., Dells manager, announced that a complete lineup will be named this week. A preliminary contest is being planned to open the Sunday night slate.

Al's Legion Team Practices Tonight

All eligible American Legion Junior baseball players interested in playing this season are invited to attend the first practice of Al's Legion team this evening at 6:30 at the city diamond.

Al's is one of two Legion Junior teams which will compete in the Waubung league this season. The other Escanaba team, the Cubs, is under the management of Al Ness.

Power & Light Hands No Names First Loss

Power & Light handed league-leading No Names their first loss in American League softball play last night, posting a 4-3 victory behind classy pitching by Bob Corriveau.

Corriveau scattered six hits and whiffed eight No Names batsmen. His battery mate, Wally Larson, was the big stick at the plate for the winners with two hits in three trips.

No Names scored two unearned runs in the first inning and added a tally in the first of the seventh but couldn't knot it up. Bob McCarthy allowed six from the No Names hill with Angie Hirn catching.

The St. Thomas Nationals durbbed Escanaba Township 24-7 with Mike Gries, Ronnie Joran and Mars Sovey collecting two hits each for the winners. Jim Gareau and Jerry McDonough had two for the losers.

Art Peterson and George Bartley shared mound duty for St. Thomas and allowed 10 hits. Roger Myron and Jack Bink hurled for the losers and were touched for 11 safeties.

Bill and Willie Doucette teamed up for the St. Thomas Oldtimers battery and beat the Clairmont Oldtimers 15-2. Clyde Nyquist and Hub Peterson were on the losing mound with Cully Engstrom catching.

Russians Will Enter Olympics

HELSINKI, Finland — (AP) — Russia will participate in the Olympic games for the first time in four decades this year and Western observers today were wondering just how powerful the Soviet delegation will shape up.

Of one thing they were certain: The Russians are sure to make at least a respectable showing or they would not be sending a team of 300 athletes here for the big international sports carnival from July 19 to Aug. 3.

For almost a year, the Russians remained mute on the question of their participation in the games although they are members of most of the International Sports Federations to which a nation must belong to be eligible. But yesterday they ended all speculation by announcing they would try for every title except field hockey.

Why they decided not to go in for field hockey was not explained and there was no immediate comment from Russian officials.

A cursory survey of the Russians' potential (there are no details available) reveals that their women probably will make the best showing as they have every time they've stepped outside the Iron Curtain.

Saxton Favored In Chicago Ring Start

CHICAGO—(AP)— A ten-pound weight edge plus an undefeated record in his last 28 fights made New York's Johnny Saxton the favorite in a ten round boxing bout tonight with Luther Rawlings of Chicago.

Saxton, 22 and fourth-ranking welterweight, is expected to weigh about 147 pounds, with Rawlings, foremost lightweight contender, coming in at 137. However, the 23-year-old Rawlings will have a three inch height advantage.

The Chicago Stadium match will be televised nationally at 9 p. m., eastern standard time.

Down the Fairway

Highland and Escanaba golf courses are shaping up fine for the annual U. P. Golf association tournament to be held here Thursday, Friday and Saturday, August 7-8-9 . . . In the long history of the association, Highland will be host to the men's championship tourney for the first time this summer . . . It will be a milestone in Highland's history . . . The familiar course west of the city that catches tourists' and traveling salesmen's eyes as they speed along US-41 is one of the most interesting in the U. P. . . . And with recent improvements to its clubhouse, Highland is all set for the U. P. classic.

Highland will be host club but many matches and qualifying rounds will be played at the Escanaba club, scene of many U. P. tournament rounds and also producer of many U. P. champions such as Harry Hogan, Clark Glavin, Don Boyce and Don Feller . . . Escanaba has produced more U. P. titlists than any other city in the U. P. . . . Being host to the official peninsula meet will be a boost for Highland, and the day may not be too far off when it will produce a U. P. champion.

When Mrs. Harry Bourke and Jim Fitzharris alternated strokes and shot a 46 to win the two-ball foursome at the Escanaba club, it was one of the lowest scores ever to win the famed Scotch event here . . . Harry Bourke had Mrs. Fitzharris as his partner and they came through with a gross 51, also very low for two-ball foursome play . . . Mrs. Jess Lavolette and Harry Hogan were only a stroke away at 52 . . . Harriet Bourke and Jim Fitzharris started out with a par five on No. 1 . . . That's nice going when you consider that in this golf game the man drives, the lady hits the second shot and so on all around the course.

Escanaba's beat-Harry-Hogan day was a takeoff on the national promotion Beat Ben-Hogan . . . And what do you think happened? . . . On only his second round this summer (and many previous summers) Charles Gessner clicked off a commendable low-fifties score that with his handicap was good enough to "Beat-Harry-Hogan." . . . That should make Charles a regular twilight customer at the home course . . . Low medal scores of the afternoon were Elmer Swanson 37 and Leo Vinje, Wendell Green and Hogan with 40's . . . Teeing off together Saturday afternoon, Swanson, Bruce Anderson and the writer each shot birdie fours on No. 1 . . . Swanson got his the easy way, two putts for a birdie . . . Bruce and your correspondent each had to drop fairly long putts.

Francis Boyce has been hitting the ball well . . . He reeled off a neat 37-38—75 a few days ago . . . And that 38 included a two-stroke penalty for a ball out of bounds on the long sixth hole . . . Incidentally, that's a stickler this year in case you fellows hadn't noticed it . . . The USGA has rulled a two-stroke penalty (that's stroke and distance) for all shots out of bound . . . If there is any dispute about that (or rather to avoid any dispute), let's clarify this ruling before the U. P. meet.

Hazen Hengesh, beginning his eighth season as prexy of Highland, says the course is going to be in tip-top shape for the U. P. tourney . . . "New traps," he says . . . I don't know—is that good! . . . Mert Jensen is general chairman of the U. P. event and Bertel M. "Bud" Stade is secretary . . . Vial Smith, who won the Highland title by beating Dr. Francis Anderson in the finals last year, has been clicking off some 77's and 78's recently . . . Abe Milkovich likewise is in the high seventies . . . Jim Douglas hasn't turned in any scores yet, but Mert Jensen turned in a 42 after shooting a hush-hush 56 the day before . . . Jerry Harris, 1950 Highland champion and Michigan Tech skiing and golf star, will be back soon.

Among low women's scores at Escanaba are Jean Smith's 50, Marg LeMire's 51 and three 49's by Ruth Needham . . . Harry Needham, new club president, and Jack Root, chairman of the house committee, are to be commended for a fine job in supervising and promoting new construction and interior renovation of the Escanaba clubhouse . . . All comment about the changes since the opening get-together have been favorable . . . Eddie Ernst, new pro, is making a hit with his fine instruction and management.—**JGW.**

Big Question -- Why Is Charles Big Favorite?

ATLANTIC CITY, N. J.—(AP)—One of the biggest mysteries in this fight training camp center, outside of how finely Ezzard Charles' mustache will be trimmed, is why the ex-champ from Cincinnati is such a big favorite to dethrone Jersey Joe Walcott in Philadelphia tomorrow night.

Joe Walcott

Not-so-lean Ezzard was rated a 2 to 1 to 3 to 1 choice, depending on where the bettors were doing their shopping, to become the first former heavyweight king in history to regain the prized crown.

Although a majority of the visiting fight writers are plunking for the 30-year-old challenger they openly admit they are doing it with fingers crossed. No one apparently has any firm conviction that Ezzard is going to win because of the heavier power in 38-year-old Jersey Joe's fists. Most of the critics figure this should be a pick 'em fight.

Dangerous Puncher

They know that the ancient gladiator from Camden is apt to put Charles away with one punch, and they know that Joe can do it with either hand. But they are going for Charles because they feel Joe is liable to come apart just like Joe Louis did against Charles and Rocky Marciano. After all, how long can Jersey Joe go?

Picking Charles as a rule is like choosing the National League over the American League in the All-Star game. Even if your man or team wins you know you're going to have to sweat it out all the way. Walcottt and the American Leaguers can take you out with one shot.

After losses to Charles in Chicago and Detroit, Walcott finally caught up with Charles' with his picture punch kayo in the seventh round in Pittsburgh last July.

Final Workouts

And Walcott is convinced that he will do it again in Philly's huge Municipal Stadium.

The challenger closed out his boxing with a very impressive workout in which he viciously battered sparmates Al Smith and Julie Keene. His left hooks, to the body and head, were particularly good, and one right hand shot sent the fleet and clever Keene backwards.

Walcott simply toyed with Pete Nelson and Oakland Billy Smith. The champ was under wraps. He's boxed 75 rounds while Charles has gone 101 in training for their fourth meeting.

Training camp workouts don't mean too much when it comes to picking winners. But if you go by the final practice sessions of the two, you'd have to like Charles.

MANAGERS MEET

Managers of teams in the Waubung baseball league will meet Thursday night at 8 p. m., at the home of Al Ness, 1410 18th Ave., South, in Escanaba.

Highland Twilighters To Make Own Pairings

No regular pairings will be made in the Highland Golf club twilight league on the first Tuesday of each month, it was announced today by Whitney Dixon, chairman.

Because of the keen competition between members of the two divisions of the league, members will be allowed to make their own pairings. Scores will be counted in regular league averages.

Appointed to the twilight league committee were I. R. Peterson, William Perron, Carl Friets, Con Desilets and Gunnar Nelson.

Western Michigan Is Illinois Playoff Foe

CHAMPAIGN, Ill. —(AP)— The opener of a three-game series of the NCAA district baseball playoff championship paired Illinois against Western Michigan today.

The two teams were victors in preliminary playoffs last week. Illinois beat Ohio University in a three-game series and Western Michigan conquered Wisconsin in a similar playoff.

The series winner will advance to the NCAA finals in Omaha June 12-16.

Betsy Rawls New Queen Of Golfers

GREAT NECK, N. Y.—(AP)—Twenty-four-year-old Betsy Rawls, a Phi Beta Kappa with an educated swing, is the new queen of women's professional golf, but she finds it hard to shake the shadow of "the Babe."

"The Babe (Mrs. Babe Didriksen Zaharias) is still the best," the Austin, Tex., miss said yesterday after adding the rich trans-Continental championship to her National Open crown. "When the Babe's right, nobody can touch her."

Miss Rawls, who majored in physics at the University of Texas and then gave it all up to chase par and dollars, took over the undisputed No. 1 place in the ladies' ranks with her record-shattering triumph in the cross-country event.

$5,000 Prize

She supplanted the ailing Mrs. Zaharias as the season's leading money winner, boosting her winnings to $9,510.08. She won the $5,000 trans-Continental first prize and plucked $150 on the side for finishing seventh in the last 36-hole leg.

Mrs. Zaharias had to withdraw from the circuit recently to undergo an operation, but Miss Rawls' triumph was virtually in the books before this misfortune.

The Texas newcomer, a pro of only 16 months, had an almost insurmountable nine-stroke lead over the Babe going into the final 36 holes. Previously she had beaten the Babe and other top women pros in the women's National Open, a title she'll defend June 26-28 at Philadelphia.

Breaks Record

Betsy shot a pair of 78's—Saturday at Scarsdale and yesterday at Deep Dale here—for a 144-hole total of 590. This clipped 11 strokes off the tournament record shared by Mrs. Zaharias and Patty Berg in tying for the title last year before Miss Berg won the playoff.

Miss Rawls started golf at the age of 17 and developed fast under the tutelage of her father. As a pro she's been under the wing of Patty Berg and the Babe.

"She has a wonderful swing and is a great competitor," said Patty. "Young as she is, she'll be hard to beat for years to come."

State AAU Track Meet At Ypsilanti

YPSILANTI, Mich. — (AP) — More than 200 track and field competitors clash here today in the state AAU championships.

The championships are regarded as a tuneup for next month's final Olympic trials.

Several outstanding Olympic team prospects including George Lynch, of the University of Michigan, will compete in preliminaries and finals on the Michigan Normal college track here.

Lynch, already credited with a 9:09.5 for the two mile run, has been hailed as Michigan's successor to Don McEwen, the crack Canadian distance star.

As a transfer student at Michigan, Lynch was ineligible to enter Big Ten competition this year. He is entered in the 10,000 meter run. Meet director Loyd Olds, of Michigan Normal, said McEwen may also compete in the Olympic distance event.

Other competitors include Harrison Dillard, the 1948 Olympic dash champion from Baldwin-Wallace and Lorenzo Wright, a former Wayne University shotput star.

The Cleveland Indians have scheduled 19 exhibition games with the National League champs, the New York Giants.

Detroit And Boston Fans Disagree On Trades

DETROIT — (AP)—Will the historic baseball trade that sent nine players hiking to new teams help the Boston Red Sox win the pennant? Will it boost the Detroit Tigers out of the American league cellar?

Fans and experts in both cities disagree—some of them violently.

In Boston the Globe and Record reported that surveys showed fans there thought theRed Sox got the worst of the million dollar swap—one of the biggest trades in years if not all time. The Record said fans were 9 to 1 against the deal.

But sports editor Jerry Nason of the Boston Globe said "a hasty appraisal suggests the Red Sox struck gold."

The second-place Red Sox got George Kell, one of the game's great third basemen, outfielder Hoot Evers, shorstop Johnny Lipon and pitcher Dizzy Trout in yesterday's deal.

In return the Red Sox sent first baseman Walt Dropo, outfielder Don Lenhardt, both long-ball hitters, shortstop Johnny Pesky, third baseman Fred Hatfield and pitcher Bill Wight to the Tigers.

In Michigan five large dailies reported a majority of the fans thought the Tigers bested the Red Sox in the deal, one paper said opinion was divided, and another reported fans opposed to the loss of Kell.

Sports editor Lyall Smith of the Detroit Free Press wrote, "the Red Sox can win the pennant now with any kind of help."

Expert opinions on the trade included:

Biggest boost to the Red Sox was getting Kell, who has batted over .300 and won an all-star team berth for the last five seasons.

Both Kell and Evers bat right-handed and can shoot for that short left field wall. Evers will play left field and perk up the Bosox defensively.

Lipon will give the Red Sox infield depth and Trout will help the relief corps.

From the Tiger viewpoint, Dropo and Lenhardt were the big men. The Tigers needed power hitters. Dropo and Lenhardt, who rank second and third in the league in runs-batted-in, will team with Vic Wertz to give the Tigers a long ball trio.

Even On Defense

And Hatfield and Pesky should prove as adequate defensively as Kell and Lipon.

How did the players involved like the deal?

Here's the answer from new Red Sox players.

Evers—"I like playing Fenway park. I always see the ball well here and I've been able to hit to all fields."

Trout—"Do I like it? Of course I do, jumping from eighth to first place in one day." (Several hours later the Bosox slipped to second place after a 6-0 loss to Cleveland).

Kell—"I could hardly believe I had been traded. But I guess it's all right. I'm a ball player working for a living and I would go wherever they sent me. The Red Sox are a good club and I hope I can help them stay up there." (Kell heard about the deal too late to make connections for Boston).

And here's how the new Tigers felt:

Dropo: "The fence at Briggs Stadium isn't as short as at Fenway but a lot of line drives that fail to carry over the wall at Boston will go into the stands at Detroit."

Pesky: "I won't be able to play for three or four days because of a torn leg ligament. I hope we'll be able to help the Tigers.

Lenhardt—"I just hope I can keep on hitting well and prove a big help to the Tigers."

Hatfield—"I know I've got a big job in trying to fill Kell's shoes but I'll try." Hatfield failed to make his plane connection yesterday and wasn't to report to the club until today.

The Tiger-Red Sox swap coincided with a cash player deal between the Boston Braves and Cincinnati Reds.

The Braves yesterday sold 31-year old outfielder Willard Marshall to the Cincinnati Reds in a cash deal also involving a swap of farm club personnel.

Marshall, who batted .281 last year, was bought by the fourth place Reds for an undisclosed sum. The deal was the first player change on the Braves roster since Charley Grimm assumed the club managership, Saturday.

In addition to the cash the Reds expect to option a farm club player to a Braves organization within the next ten days.

Tigers, Red Sox Both Lose

Cleveland Regains AL Lead

By JOE REICHLER
(By The Associated Press)

They're still trying to figure out today which team got the better of yesterday's nine-player swap between the Detroit Tigers and Boston Red Sox that involved several top flight stars.

Initial returns presented no clue to the answer as the fans buzzed with excitement over what may be the biggest single trade in the history of baseball.

Luke Easter

Only hours after the trade, former Tigers Hoot Evers and Johnny Lipon appeared in Boston uniforms against the Cleveland Indians. About the same time, ex-Red Soxs Walter Dropo and Don Lenhardt took their places in the Detroit lineup against the Philadelphia Athletics.

Boston Blanked

None of the four distinguished himself in any way. The Indians shut out the revamped Red Sox, 6-0, while the Athletics humbled the made-over Tigers, 3-1.

Evers and Lipon each singled as the Red Sox collected only seven hits off the airtight pitching of Mike Garcia. Dropo got one of Detroit's eight safeties off lefty Alex Kellner and Lenhardt got the horsecollar in four times at bat.

George Kell, key man from Boston's viewpoint, in the four-for-five transaction, failed to appear in time to take over the third base duties with the Red Sox. Veteran pitcher Dizzy Trout, fourth Tiger in the deal, was on hand but was not called upon.

In addition to Dropo and Lenhardt, the Bengals acquired shortstop Johnny Pesky, third baseman Fred Hatfield and pitcher Bill Wight. None of them saw action last night.

Easter Homers

Luke Easter spearheaded Cleveland's triumph with his eighth homer and a single to drive in half his team's runs. The victory boosted the Indians back into the American league lead by one game over the Red Sox.

Brooklyn retained its one-game margin over the New York Giants in the National league race, defeating the Pittsburgh Pirates, 6-4, on home runs by Jackie Robinson, Carl Furillo and Gil Hodges. The Giants shellacked the third-place Chicago Cubs, 17-4, with the aid of 17 hits including a home run, three doubles and three triples.

Brilliant relief pitching by ageless Satchell Paige brought a 3-2 victory for the St. Louis Browns over the Washington Senators. Paige yielded only four hits in 5 2/3 innings of a relief and singled in the winning run in the 17th. It was the ancient Negro righthander's third straight single.

Sain Turns Hitter

Another pitcher turned hitter when righthander Johnny Sain, in a pinch hitting role, smashed a long single with two out and the bases loaded in the 13th inning to drive in the run that gave the New York Yankees a 4-3 victory over the Chicago White Sox.

Rookie outfielder Wally Post drove in both Cincinnati runs with a single and homer to give the Reds at 2-1 triumph over Robin Roberts and the Philadelphia Phillies. Reliefer Frank Smith allowed only one hit in 6 shutout innings to gain credit for the win that enabled Cincinnati to vault over the St. Louis Cardinals into fourth place.

Rookie first baseman George Crowe slammed an eighth-inning homer, his second in two nights, to give the Boston Braves a 3-2 win over tehe Cards. Jim Wilson pitched a two-hitter for his third triumph. It was new manager Charlie Grimm's third successive triumph after he lost his debut last Sunday.

New Faces Fail To Help As Tigers Lose To A's By 3-1

PHILADELPHIA — (AP) — The Detroit Tigers' efforts to shove new faces into the lineup will hit a peak tonight.

Last night the Tigers started two of the new faces they acquired in yesterday's big trade—first baseman Walt Dropo and leftfielder Don Lenhardt. But the Tigers still lost to the Philadelphia Athletics 3-1.

Tonight Manager Red Rolfe will give third baseman Fred Hatfield a starting role. Hatfield, also acquired in the trade, failed to reach the club in time for last night's game. Of course Dropo and Lenhardt will start.

Hoeft To Start

Moreover Red planned to pitch the Tigers' popular rookie lefthander, Billy Hoeft, who started his first game last Friday at St. Louis. Hoeft (0-1) will be opposed by the Athletics' ace, lefthander Bobby Shantz (8-1).

Neil Berry will remain at shortstop until newly-acquired Johnny Pesky recovers from a lame leg.

Dropo put on the No. 11 uniform formerly worn by Dizzy Trout, now a Bostonian, and scored the only run in the ninth inning last night.

With one out, he bounced a grounder off shortstop Eddie Joost's glove for a single. He scored on Matt Batts' double to right center.

That was his only hit. Lenhardt failed to hit.

Bill Wight, the fifth player acquired from Boston, was present but the lefthanded pitcher saw no action.

Got Eight Hits

The Tigers rapped eight hits off winner Alex Kellner, including a double by Steve Souchock, who filled in at third base.

Virgil Trucks started. But for the eighth time in nine starts he failed to go all the way. After giving up six hits in seven innings, Trucks moved aside for Fred Hutchinson. Hutch gave up no hits.

The A's scored in the first inning on a walk to Hank Majeski and a triple by Billy Hitchcock.

Subsequently Majeski and Allie Clark each hit one-run homers.

Lenhardt batted third, followed by two other long ball hitters, Vic Wertz and Dropo. Both Lenhardt and Dropo played errorless ball.

At the plate Lenhardt hit a long fly, popped out, grounded out, and struck out.

Dropo Singled

And Dropo fouled out, grounded out, hit a liner directly at leftfielder Gus Zernial, and singled.

"Something had to be done to get us out of a rut," was the general reaction from the Tigers on the trade.

Dick Littlefield, sent to Buffalo on 24-hour recall, in order to keep the Tigers within the 25-player limit, left last night for Detroit. He'll spend a few days there before reporting at Buffalo.

Johnny Hopp, the first baseman-outfielder the Tigers signed Monday, was in uniform. But the New York Yankee castoff saw no action.

Sports Roundup

By GAYLE TALBOT

NEWYORK—(AP)—A tough, self-made millionaire whose spectacular career as merchant, politician and organizer has made his name a byword in Australia has hurled himself into the vast job of ramrodding the 1956 Olympic Games at Melbourne.

His name is A. W. Coles and there is no indication that he knows a vaulting pole from a discus, but they say that when he flings himself at a project things happen hurriedly and nobody had better be caught leaning on his shovel. With Coles at the helm, the Aussies now are confident that their carnival will be as great as any ever held.

Coles made his wad with a string of nothing-over-a-shilling stores. He opened the first one in a Melbourne suburb shortly after the first World War, and now he operates more than 300 of them, scattered all over Australa.

Looking around for something to keep him occupied, he entered politics during the recent World War and was elected to parliament as an independent. He led a revolt which wrecked the government of Robert Menzies, and the grateful Laborites rewarded him with the post of director of rationing.

That was just a breeze for Coles. When the war ended they asked him to please organize a government airline to cobweb the huge contitnent and started him off with four discarded American Army kites running between Melbourne and Sydney.

Coles scarcely worked up a sweat with that one. He has built Trans Australian Airlines into a smooth-running organization of 150 different flights, stocked with the finest American equipment. In seven years the line has not had a crash.

Those who know the new Olympic boss best describe him as a "pleasant bloke," but add that he can be ruthless when the occasion requires. It seems safe, at least, to say that there never has been a previous games organizer quite like him.

There's a strong and apparently well-founded report that the Cleveland Indians have given up on their huge first-baseman, Luke Easter, and are trying to peddle him for a hitting outfielder. Other clubs are scared of Luke's age. Officially he's 31, but there have been rumors he won't see 36 again.

Manager Eddie Stanky of the Cardinals sounds ready to write off the Giants' chances since their wondrous young centerfielder, Willie Mays, went into the service. "They don't look the same without him," comments the brat. "That's only natural. He meant as much to the Giants in his way as Campanella means to the Dodgers. Maybe they wouldn't miss him so much if they had Monte Irvin, but losing the two of them might be just too much."

High Court Refuses To Save Assassin And Nisei Traitor

By PAUL M. YOST

WASHINGTON — (AP) — The Supreme Court has refused to interfere with executions of a Puerto Rican who tried to assassinate President Truman and of a Nisei whose brutality caused American GI deaths in a Japanese prisoner of war camp.

The high tribunal, after deciding that President Truman's steel seizure was illegal, handed down rulings in these capital cases along with a series of other decisions. The justices are driving hard to clean up pending cases and start their summer recess.

The Puerto Rican, Oscar Collazo, took part in the Blair House assassination attempt of Nov. 1, 1950, in which a Washington policeman was killed.

Only executive clemency can now save his life.

The Nisei, Tomoya (Meat Ball) Kawakita, was convicted of treason in federal court in California because of his treatment of GI's at Japan's World War Two Oeyama prison camp. Kawakita returned to this country after the war and was spotted in Los Angeles by one of his victims.

Kawakita's life, too, can be spared only by executive clemency.

He was born of Japanese parents at Calexico, Calif.

In other actions yesterday, the high court:

1. Upheld the use of a walkie-talkie radio set by federal agents in getting evidence against a narcotics peddler in New York City.

2. Refused to hear an appeal by James J. Moran, former New York City official who was convicted of perjury before the Senate crime committee. Moran, one-time political associate of former Mayor William O'Dwyer, was sentenced to five years' imprisonment and fined $2,000.

3. Struck down a Marshall, Tex., city ordinance which bans films "of immoral character or of such character as to be prejudicial to the best interests of the people of the city." Justice Frankfurter said the ordinance was unconstitutional "on the score of indefiniteness."

4. Refused to review a protest by Safeway Stores, Inc., against a ceiling price regulation on dry groceries which was issued in March, 1951.

Next Monday the court will announce more decisions in a batch of pending cases.
